SEVEN JAP WARSHIPS ARE SUNK

CORREGIDOR LOSSES ESTIMATED AT 11,574 BY WAR DEPARTMENT

INCLUDES SOLDIERS, SAILORS, MARINES AND CIVILIANS IN MANILA BAY

WASHINGTON, May 7.—(AP)—The war department announced today that approximately 11,574 soldiers, sailors, marines and civilians were captured by the Japanese on Corregidor and the other Manila Bay forts.

The estimate was based on reports received up to April 15, a communication said, and did not take into consideration casualties which might have been suffered in the last three weeks.

The total included 2,275 naval personnel, 1,770 Marines, 3,734 American soldiers, 1,280 Philippine Scouts, 1,446 soldiers of the Philippine Commonwealth army, and 1,269 civilians including individuals not otherwise classified.

The communication was issued at a press conference by the Undersecretary of War, Robert P. Patterson, who said that Lieutenant General Jonathan M. Wainwright, commanding the American-Philippine forces, presumably was among those captured.

Text of Communication, No. 219 of the war:

1. Philippine theater:

"The total of soldiers, sailors, marines and civilians on Corregidor and the other fortified islands in Manila Bay at the time of their capture by the Japanese is estimated to be approximately 11,574. This estimate is based on reports received up to April 15, 1942, and does not take into consideration casualties which may have been suffered since that time. This number includes 2,275 naval personnel, 1,770 Marines, 3,734 American soldiers, 1,280 Philippine Scouts, 1,446 soldiers of the Philippine Commonwealth army, and 1,269 civilians including individuals not otherwise classified.

Organizations in Garrison:

"The following organizations comprised the garrisons of the harbor defenses:

"Hq. U. S. forces in Philippines 260;

"Hq. Philippine Department 28;

"Hq. and Hq. Battery, Harbor defenses of Manila and Subic Bays 241;

INCREASED JAPANESE NAVAL ACTIVITY IN AUSTRALIAN AREA

ALLIED BOMBER COMMAND TAKES ACTION TO BREAK UP DEVELOPING THREATS

By C. YATES McDANIEL

ALLIED HEADQUARTERS, Australia, May 7.—(AP)—An ominous increase in Japanese naval activity around New Britain and the Solomon Islands was reported today, with the allied bomber command swiftly countering with high explosives on this developing threat to the all-important American-Australian supply routes.

A headquarters communiqué, noting the strengthening of the Japanese in those two northern northeastern groups where they already have established footholds said the Japanese warships near Bougainville, in the Solomons, 300 miles east of New Britain, were "attacked successfully" yesterday.

No details were given, but obviously headquarters was alive to the implications of any strengthening of the invader's forces in those areas: A direct assault on Australia or an encircling move to seize the screen of islands east of this continent.

These developments emphasized the continuing danger to the American-Australian supply routes, although headquarters reported diminishing Japanese air pressure on Port Moresby, vital Allied outpost on the south shore of New Guinea.

Observers expressed belief that the lessening of aerial attacks upon Port Moresby was direct evidence of the hard blows dealt Japanese airmen at Lae, on the northeast coast of New Guinea, and Rabaul, New Britain.

In contemplating the possibility a new Japanese thrust observers took into account the fact that the fall of Corregidor had made Manila harbor available to the enemy as a new base of operations and released men and equipment for duty elsewhere.

Tribute From MacArthur

The fall of Corregidor brought today from General Douglas MacArthur a tribute to the men he personally commanded there before coming to Australia to be

BRITISH INVADERS MADAGASCAR

This closeup map of the northern tip of Madagascar, Vichy French island off the southeast African coast, shows (arrow) where British forces landed at Courrier Bay and drove inland, capturing Antananarivo (1), just a few miles from their main objective, the naval base at Diego Suarez (2). While these land forces approached Diego Suarez from the rear, warships and airplanes attacked the harbor frontally, dispatches said.

DAN MOODY PLANS AN OLD-FASHIONED STUMPING CAMPAIGN

ALLRED WILL NOT ANNOUNCE PLANS UNTIL RESIGNATION IS EFFECTIVE

By WILLIAM E. KEYS

AUSTIN, May 7.—(AP)—Red-headed Dan Moody said today he would take the stump in the forth-coming senatorial campaign in an old-fashioned speaking tour that will give the electorate a radio vs. stump campaign.

James V. Allred said he would not announce details of his campaign until after May 15, when his resignation as federal judge is effective. Sen. W. Lee O'Daniel's tactics were almost certain to follow the form of his three previous campaigns, in which showmanship played a major role. O'Daniel's original and best medium was the radio.

O'Daniel in Washington said he had no comment to make on yesterday's twin-barreled announcement by the other two former governors that they would oppose him in the Democratic primaries for nomination to the full U. S. senate term.

Moody, who made his first announcement by taking a recess from a trial where he was appearing as counsel, followed it with a statement in which he promised not to engage in "showmanship, not to be a fault-finder, but to support in every possible way and to the very limit of my ability the war effort of this country."

He revealed the type of campaign he plans, answering a question with a question:

"Did you ever see a man toss his hat in the air while listening to a political speech on the radio?"

Moody, master of invective, feels that an audience gets close

SENATOR RESENTS PROGRAM TO SEIZE AUTOS OF CIVILIANS

JOHNSON, COLORADO, SAYS SAYS PEOPLE BEING "PUSHED SATISFY EGOTISM"

WASHINGTON, May 7.—(AP)—Endorsement by seven government officials of a proposal to requisition private automobiles needed today from the terse and formal phrases of official citations as the war department conferred decorations on 16 officers and an enlisted man of the army air forces.

Some of the eight distinguished service crosses and eleven distinguished flying crosses were awarded today for courage in the face of shattering enemy fire in the first attack on Clark Field in the Philippines, others were for later actions in the Southwest Pacific. Two officers each received two awards.

Master Sergeant Louis T. Silva, of Rio Vista, Calif., will wear the DSC because, on January 17, as line chief of a bombardier squadron, he insisted on accompanying his squadron commander who lacked experienced gunners for his first mission after arriving in a combat area. Silva, not only manned his gun coolly, reloading several times during the 40-minute battle and destroying at least three of the 15 enemy pursuit craft, but he took time out to remove the tail gunner to the forward part of the bomber after the latter's leg was broken by an explosive bullet.

Posthumously the DSC and DFC both were awarded to Major Stan-

BIG FRENCH ISLAND COMES UNDER POWER OF BRITAIN QUICKLY

JAP WARSHIPS BELIEVED PLANNING ACTION AGAINST AUSTRALIA; ALLIES ACT

By ROGER D. GREENE
Associated Press War Editor.

British shock troops have captured the big naval base of Diego Suarez in Madagascar less than 48 hours after their attack on the 1,000-mile-long French island, it was officially announced today, while Japanese warships started threatening new maneuvers north of Australia.

Allied bombers dealt a heavy blow to the potential Japanese invasion armada reported massing near Bougainville, in the Solomon Islands, Gen. Douglas MacArthur's headquarters announced.

No details were given, but a communiqué said allied warplanes rained explosives on the enemy fleet in a "successful" attack.

Meanwhile, the war department in Washington announced that approximately 11,574 soldiers, sailors, marines and civilians were presumed captured by the Japanese in the surrender of Corregidor and the three other Manila Bay forts.

Imperial Tokyo headquarters said Japanese troops completed occupation of the island at 7 p. m. Wednesday, Eastern War time, after Lieut. Gen. Jonathan Wainwright's exhausted defenders capitulated to overwhelming Japanese assault forces.

The surrender of French Colonial forces opposing the British occupation on northern Madagascar island followed swiftly after the defenders had beaten off the first British attack yesterday inflicting more than 1,000 casualties.

"Antsirana, chief town in the

JAP MECHANIZED SPEARHEAD REACHES CHEFANG, CHINA

HEAVY FIGHTING REPORTED IN PROGRESS FAR INSIDE CHINA BURMA ROAD

By SPENCER MOOSA
CHUNGKING, May 7.—(AP)—A Japanese mechanized spearhead with warplane support has swept 25 miles along the famed Burma road into Chinese territory and reached the town of Chefang, where heavy fighting is in progress, a Chinese army spokesman said today.

The spokesman said it was not clear how far the Japanese intended to penetrate Yunnan Province, which contains the Chinese section of the Burma road, but the lightning drive to Chefang, so rapid the Chinese had no time to destroy the highway, was a major offensive with Chungking, the capital as the objective.

En route the Japanese completed occupation of Wanting, Chinese customs station at the Burma road at which the new Japanese invasion of China began two days ago.

(For some weeks close students of Japan's intentions have suggested that her next move might be

BIG POST-WAR PROBLEM WILL BE EDUCATION GERMAN YOUTH

DEMOCRACY BEST WAY OF LIFE

By DEWITT MACKENZIE
Wide World War Analyst.

There have been indications lately that the German youth, the latest being the report (unconfirmed but from a responsible source) that some of Hitler's generals have notified him that if his 1942 campaign in Russia fails they will institute a plan of their own calling for "abolition of the Nazi system."

Naturally the question arises as to how much of a hold Nazism has on the German youth.

In this connection Mrs. Franklin D. Roosevelt has put her finger on a vital point with the observation that it will require many years after the war to educate German youth to understand that democracy is better than Hitler's theory of racial superiority and hatred for other peoples.

That certainly is true, and it will represent one of the greatest of the post-war problems. But it also is a matter of immediate moment, since Hitler is depending heavily on the support of young Germany to pull him through.

The manner in which the young

BRITISH LAND AND NAVAL FORCES TAKE OVER DIEGO SUAREZ

OCCUPATION OF KEY POINT ON FRENCH ISLAND COST BRITISH OVER 1,000 MEN

By NOLAND NORGARD
LONDON, May 7.—(AP)—Strong British land and naval forces captured the Diego Suarez naval base and surrounding territory on the strategic north tip of the French Island of Madagascar at a cost of something more than 1,000 men, it was announced today.

Occupation of that key point on the Indian Ocean supply routes prevent its falling into Axis hands, was accomplished 48 hours after British Commandos, marines and soldiers landed at dawn Tuesday, but only after one assault had been thrown back Wednesday morning by hard-fighting colonial troops and seamen loyal to the Vichy French regime.

Prime Minister Churchill, reporting the action to the House of Commons, declared the coup had been planned for three months and that "in order to prevent bloodshed so far as possible, very strong forces of all arms were employed."

The French said the British force included 23 warships, of which five were of heavy tonnage—signifying battleships or large cruisers.

The war office, the admiralty, the ministry of information and Churchill contributed to details of the quick conquest, which began with a landing on the northwest side of the island at Courrier Bay and progressed eastward to the strategic capture of the village of Diego, the chief town, Antsirana and the Diego Suarez naval base, which lies deep in the bay southwest of Antsirana.

Terms Being Drafted

Surrender terms are being drafted and the British naval squadron will enter the main harbor this afternoon, a source as military have been swept up, Churchill stated.

It was disclosed that, in addition to the major landings at Courrier Bay, other forces went ashore

Curtiss Warhawk, Newest Fighter, Performed Well

BUFFALO, N. Y., May 7.—(AP)—The Curtiss Warhawk, one of the U. S. army's newest fighter planes now rolling off assembly lines, has performed impressively in its first public demonstration.

Whipped through the skies above Buffalo airport by Curtiss-Wright Corporation test pilots, three of the Warhawks showed yesterday they could climb almost as rapidly as side-drawn fighters, and roll as fast as they could in normal flight.

Disclosure of the plane's exact specifications and performance is prohibited, but the Warhawk, officially designated the P-40F, is a single-engine, single-seat, high-altitude class, and packs a destructive wallop.

Successor to the Tomahawks and Klawykatyht eKdd hrdlu shrdlu Killyhawks which have blasted Nazi Messerschmitts and Yanks Macchis for the RAF and Japanese "Zeros" for the U. S. army and AVG in the Far East, the Warhawk is the first U. S. warplane to be powered by the eight-cylinder, 1,150-horsepower Rolls-Royce Merlin engine now being turned out by Packard.

CORREGIDOR FALLS BUT FLAG FLIES

Japanese assaults on Corregidor Island, at the mouth of Manila Bay, resulted (1) in surrender of Corregidor and other island forts in the vicinity. But the American flag still flew as United States and Philippine forces continued guerrilla action on Panay, Cebu and Mindanao.

JAPANESE EXPECTED TURN FULL FURY OF WAR ON CHINA NOW

CONQUEST OF BURMA AND PHILIPPINES BRINGS ENEMY TO NEW POINTS

By JOHN M. HIGHTOWER
WASHINGTON, May 7.—(AP)—Flushed with their conquests in Burma and the Philippines, the Japanese war lords were expected by military strategists today to turn in full fury on China in an effort to knock out that potentially powerful United Nations force.

As the war in the Pacific entered on its sixth month, these military experts pointed out, however, that the headlong rush of the Japs had carried them to a point where they might turn in any of several directions. Their only reasonably sure course will be an attempt to cut the supply line to Australia.

As the experts here view them, the possibilities in order of their probable occurrence are:

1. A pincher's squeeze on China, one main force striking from the north and the other from the south, the latter employing the

See WAR ROUNDUP, Page 5

MORGENTHAU SAYS TIME HAS COME FOR LOWER EXEMPTIONS

SINGLE PERSONS, \$600; MARRIED COUPLES, \$1200; \$300 FOR DEPENDENTS

WASHINGTON, May 7.—(AP)—Secretary of the Treasury Morgenthau told the house ways and means committee today that "the time has now come" to lower personal exemptions under the individual income tax to \$600 for single persons, \$1,200 for married couples and \$300 for each dependent.

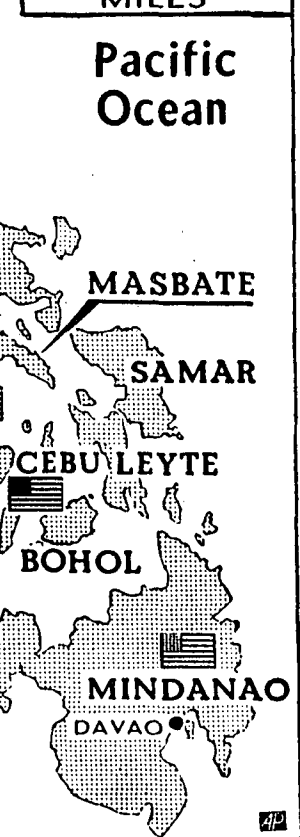

The letter said that this new increase would be over and above the \$320,000,000 he asked congress to raise from individuals as part of an overall \$760,000,000 tax program. Present exemptions are \$750 for single persons, \$1,500 for married couples and \$400 for dependents.

Last year the seven million individuals who paid income taxes paid \$5,000,000,000. Under any of various plans that have been presented, they would pay much more hereafter but some committee members have said there was a strong possibility that some of Morgenthau's steep surtax rate increases would be pared down.

Doughton told newspapermen that Morgenthau's letter proposing lower exemptions was presented

PHILIPPINE ISLANDS

AFTER ARMY FAILS FATHER FINDS SON AND WRECKED PLANE

ARMY TRANSPORT MISSING SINCE DEC. 12 WITH HIGH OFFICERS LOCATED

LOS ANGELES, May 7.—(AP)—G. B. Burns, who vowed he'd never rest until his son's body was found, has discovered wreckage tentatively identified as that of an army transport which carried Maj. Gen. Herbert A. Dargue and seven other army men to death Dec. 12.

Burns, from Spokane, Wash., came to Southern California last weekend to search for the body of his son, Lieut. Homer C. Burns of March Field, Calif., co-pilot of the Dargue plane. With him came Lieut. Burns' widow, a brother and sister-in-law. The army had sought in vain for the craft.

After five days of skimming over treacherous trails in rugged, snow-covered mountains they came upon the wreckage at dusk last night.

The location was kept secret until Army officers could reach the scene today and post guards.

Burns reported immediately to Army air force officials. He said he found a belt which he identified as his son's. He saw one body and scattered clothing. He did not probe the wreckage, leaving that to the army.

Aboard the plane when it left Phoenix, Ariz., the morning of Dec. 12 for Hamilton Field near San Francisco were:

Gen. Herbert A. Dargue, of

RED ARMY ATTACK ON LENINGRAD FRONT IS REPORTED SUCCESS

WEDGE DECLARED DRIVEN BETWEEN TWO GERMAN FORCES IN NORTHERN AREA

MOSCOW, May 7.—(AP)—The Red army, attacking across boxes on the Leningrad front, was reported today to have driven a wedge between two German forces and encircled one Nazi detachment in an important sector west of the long-neglected city.

Red Star said the Russians captured a junction point which the Germans had held throughout the winter. This action, the army organ declared, cut the road which united northern and southern wings of the enemy force in this area.

The Russians also reported the capture of several German centers of resistance on the Leningrad front after they had been isolated by spring floods and artillery fire had sunk rafts laden with reinforcements for the strong points.

Thirty-seven villages were reported to have been recaptured by the Russians on the northwestern front, of which Leningrad is a

NAVY ANNOUNCED ADDITIONAL HEAVY LOSSES FOR ENEMY

FOUR MORE JAPANESE SHIPS WERE ALSO SUNK IN VARIOUS PARTS OF PACIFIC

WASHINGTON, May 7.—(AP)—The navy announced today that eight Japanese ships, including seven warships, had been sunk in a naval engagement in the vicinity of the Solomon Islands in the Pacific and that four other enemy vessels were badly damaged.

The action was carried out with the loss of one of three American planes, a communiqué said while six enemy planes were destroyed.

At the same time, it was announced that United States submarines on patrol in the western Pacific had sunk three enemy ships.

These various sinkings and damage raised to more than 230 the number of Japanese vessels destroyed or damaged by the United States forces to date.

No details of what apparently was a great naval engagement involving Japanese forces striking at the flank of the American supply line to Australia were given in the navy report except as to results and the fact that it occurred on May 4.

The communiqué began by saying simply that "very excellent news has been received."

Naval authorities declared that employment of the term "naval engagement" left no doubt that this was an action involving American and Japanese surface units as well as airplanes, the first on any considerable scale since the battle of Java Sea in which the Japanese emerged victorious.

The enemy ship sunk was a light cruiser, two destroyers, four gunboats and a supply vessel.

Those damaged were a 9,000-ton seaplane tender, a light cruiser, a cargo vessel and a transport.

SEIZURE OF FRENCH HOLDINGS WESTERN HEMISPHERE URGED

SENATOR PEPPER ADVOCATES IMMEDIATE ACTION; CONNALLY WOULD WAIT

By JOHN W. HENDERSON
WASHINGTON, May 7.—(AP)—The British-French conflict over Madagascar has brought on a stormy discussion today of the possibility of a United States move to seize French possessions in the Western Hemisphere to prevent their use by the axis.

Chairman Connally of the senate foreign relations committee advocated such action only if the Madagascar action led to a "shooting war" between United States and French forces, but Senator Pepper (D-Ill.), a committee member, urged immediate seizure.

"I think we ought to go ahead and take those French islands without dilly-dallying," Pepper told reporters. "We haven't got time to fool with the niceties with people who are stabbing us in the back."

The Florida senator also declared the United States should inform Portugal and Spain that axis use of their Atlantic possessions would not be tolerated.

Connally said at a press conference that he would advocate taking Martinique, French Guiana and all French possessions in the Western Hemisphere if there is any armed conflict with the French over Madagascar or any threat that any of these places in anywise would be used to help the enemy.

"If they are behaving themselves," he declared, "it would be just as well to let them alone. But I wouldn't take any chances, and if there was the slightest suspicion that they might be used to help the axis, I'd say to seize them for protective purposes."

CIVITANS ENJOYED SPECIAL PROGRAM LUNCHEON SESSION

ONE-ACT PLAY PRESENTED; NAVAL AND AIR CORPS OFFICERS TALKED

Presentation of the prize-winning one-act play, "Antic Spring," by students of the Corsicana High school and an account of a merchant ship-submarine battle by Ensign Frank M. Keathley featured the weekly luncheon session of the Corsicana Civitan Club Thursday noon at the Navarro Hotel.

Also highlighting the program was a graphic and interesting description of operational training by the U. S. Army Air Corps by Lieut. Daniel A. Story, who is home on a short furlough. He told of the rigid and exacting training undergone by U. S. Army fliers after they have received their wings.

Election of officers for the ensuing year featured the business session of the meeting. Frank J. Williams was elected president, succeeding Robert L. Nix. Other officers selected included John Sibley, first vice president; Tom Eddy, second vice president, and Henry Ferguson, secretary-treasurer.

The one-act play was presented under the direction of M. S. Cook, dramatic teacher at the high school. It was selected for first honors at the district meet of the Texas Interscholastic League held recently at Waco and later secured second place at the regional contest. Members of the cast included June Pantan, Barbara Byrd, Byron Cooke, Bobby Waddell, J. Marvin Wolens and Roy Jordan.

Ensign Keathley briefly outlined his recent experience in a battle with an axis submarine as chief of a gun crew seeing aboard one of the United States merchantmen. He told how his first ship was sunk by two torpedoes from an axis sub and of a subsequent battle between the submarine and his rescue ship.

Ensign Keathley, at the request of the captain of the rescue vessel, manned the deck gun and scored a direct hit on the sub at a range of about 2,000 yards. A special guest of the club, Lieut. Story, who is now piloting a Consolidated 24-D heavy bomber, described an interesting manner the routine training program now in operation for combat fliers. He pictured the United States Army Air Corps as a powerful growing arm of the nation's forces and that its effectiveness will make itself known more and more in the future.

Robeson and J. C. Watson had charge of the program. President Robert L. Nix presided. Guests included Scott Lowry, W. E. McKinney, and W. E. Waddell.

Program committees for the next meeting is composed of Ed Wendt and H. W. Keathley.

Glynne C. Steele Of Streetman Now Air Corps Sergeant

Glynne C. Steele, son of Mr. and Mrs. Alvin G. Steele of Streetman, has been promoted from the rank of corporal to sergeant. It was announced today by his commanding officer at Gunter Field, Montgomery, Ala.

Sergeant Steele joined the air corps in June, 1941, and helps them fly now as an air mechanic at Gunter Field, a basic flying school of the vast Southern Air Corps Training Center, where American and British aviation cadets find their wings.

Retired General, Cousin Corsicana Woman, Passes Away

Mrs. A. A. Allison has been notified of the death of her cousin, Brigadier General Hubert A. Allen, retired, who passed away Sunday in Portland, Oregon.

Deceased was native of Independence, Iowa, and was at time stationed in the Philippines and on Corregidor and helped to build the defenses on that island. He was on the Mexican border for a time and served in France during the first World war.

Courthouse News

District Court. The jury for the week was excused Monday by Wayne R. Howell, district judge.

District Clerk's Office. The following cases were filed: Lebus Rotary Tool Works vs. R. and L. Drilling Company, debt. J. B. Wilson vs. Rosa Lee Wilson, divorce.

County Court. Ann Sharpley, charged with violation of the prohibition laws, entered a plea of guilty Thursday and was fined \$100 and costs by E. D. McCormick, county judge. A white woman was adjudged of unsound mind Thursday afternoon.

Marriage Licenses. James F. Stroud and Lela Mae Pettit.

Sheriff's Office. Sheriff Cap Curington revealed Tuesday that three negroes were out on bond awaiting the action of the grand jury in a cattle theft charge recently filed before Judge T. A. Crowley at Kerens as the result of investigations conducted by Navarro, Dallas, Hill and other county officers in recent weeks. The cattle in question were stolen in the Powell community and sold to innocent purchasers in East Texas.

Some cattle stolen several months ago in Hill county later was sold in Ellis and Dallas counties and finally were located in Navarro county, while livestock raised in Dallas county later were sold at Hillsboro auctions. The sheriff said buyers of the livestock in question residing in Navarro county were innocent purchasers. Investigations are still under way by the sheriffs of the affected counties, Curington intimated.

R. S. High, mayor of Blooming Grove, Wednesday reported to the sheriff's office his 1939 Chevrolet two-door sedan was stolen Tuesday night.

The automobile was found stripped near Blooming Grove, county officers reported Wednesday afternoon.

A bicycle belonging to John Osborne at Richland was stolen Tuesday night.

Constable's Office. One man was arrested in connection with the seizure of five pints of whiskey in his automobile Wednesday night by the constable. The man was placed in jail on a charge of driving while intoxicated, and one was arrested for operating a car without a driver's license, it was reported Thursday.

County School Board. Routine matters were considered Tuesday at the May session of the Navarro county school board.

Assignments. G. L. Tatum to Pure Oil Company, 25 acres H. C. Ryland survey, \$1 and other considerations. G. L. Tatum to Pure Oil Company, 25 acres H. C. Ryland survey, \$1 and other considerations.

Oil and Gas Lease. Mary Lucile Loyd, et al. v. to Falcon Company, interest in 115.90 acres Samuel Benton survey, \$19.35.

Warranty Deed. Emil Cornblith to Harry Sigel, 1-2 interest in a part of a tract formerly owned by D. J. Gilbert, \$10 and other considerations.

Deed. H. Edgar et ux to George E. Keesler, 24 acres John Choate survey, \$10.

Deed. W. F. Montfort to J. H. Bruner, lots 12, 13, 14, 15 and 16, block 40, East Heights addition, Corsicana, \$200.

Deed. Mrs. Vera Evelyn Cochran et al. to N. B. Woods, 3.6 acres Bell survey, \$50.

Deed. Bettle K. Patterson et ux to Miss Leach survey, except a lot 50x 140 feet, \$5,250.

Justice Court. Two were fined on speeding charges by Judge Pat Geraghty. One was fined on a vagrancy charge and another for operating a truck without a commercial license by Judge Hayden Paschall.

Three were named in violation of the prohibition law complaints by Judge Hayden Paschall Thursday morning.

One was fined for operating a car without a driver's license Thursday morning by Judge Pat Geraghty.

John Neal Bryant Enters Training as Naval Aviation Cadet

John Neal Bryant of 1443 Third avenue, Corsicana, was among more than 60 young men ordered to report May 7 to the Grand Prairie naval air base for primary flight training with the navy. It was announced today. He is the son of Mr. and Mrs. John J. Bryant.

Bryant, enlisted by the naval aviation cadet selection board at Dallas, will be commissioned an ensign in the naval air arm upon successful completion of both primary and advanced training. Salary will be \$245 per month, including flight pay.

British Enter Harbor. LONDON, May 7.—(AP)—The Berlin radio today broadcast a Vichy report that British naval units which had been off Diego Suarez, chief port of Madagascar, entered the harbor at 3:30 p. m.

Prime Minister Churchill had said the formal entry into the port would be made about that time.

Other Texas Citations. Captain James J. Connally, Waco, Texas, DFC for a bombing mission to Jolo, P. I., in the face of severe equatorial thunderstorms and poor visibility. An enemy tanker of 15,000 tons was destroyed, and shortly thereafter the two bombers of the formation were attacked by pursuit planes. The leader's plane lost an engine, and his tail gunner was killed. Mueller held position and fought off the attacking planes for 20 minutes. On the return to the field, the effectiveness of his protection all the decorations were awarded on the recommendations of Lieut. Gen. George H. Brett, deputy commander in chief in the Southwest Pacific.

GEN. FRANK E. LOWE TO DELIVER ADDRESS TO AGGIE GRADUATES OF TOTAL 741 GRADUATES OF A. AND M. COLLEGE, 565 TO GET COMMISSIONS

COLLEGE STATION, May 6.—(Special)—Brig. Gen. Frank E. Lowe, U. S. A., chief officer of the Reserve Officers Training Corps, Washington D. C., has accepted an invitation to deliver the commencement address to the graduating class at Texas A & M College Friday night, May 15, according to an announcement made here Tuesday by Dr. E. P. Humbert, chairman of the Commencement Committee.

Significant is the fact that of the 741 men to receive degrees at the May commencement, a total of 565 will receive commissions as second lieutenants in the Officers Reserve Corps and are expected to be called to active duty shortly after graduation. All of them received their military training under the R. O. T. C. program headed by General Lowe and the school again will turn out more graduates than any other institution of higher education in the nation. Commencement exercises will begin Thursday afternoon, May 14 at 4:30 o'clock when the Texas Aggie band will play its traditional concert. That evening the traditional Senior Ring dance will be held in Shiba Hall.

Sermon by Bishop Quinn on Friday morning, May 15, the Rev. Clinton S. Quinn, D. D., Bishop of the Diocese of Texas, Houston, will deliver the baccalaureate sermon at 10:30 o'clock in Gulon Hall, the college chapel.

That afternoon all departments of the college will be open for inspection by the friends and parents of the students.

That evening at 6 o'clock the commencement procession will move into Kyle Field Stadium and at 8:15 General Lowe will address the Class of 1942. Cadet Colonel Thomas S. Gillis, of Fort Worth, ranking cadet in the corps, will deliver the valedictory. Gillis is the first student to graduate from Texas A & M with a perfect scholastic record of no grade below an A in four years of work.

Dr. T. O. Walton, president of the college, will confer the degrees. That evening Dr. and Mrs. Walton will be at home informally to the graduating class and their guests, former students of the college and their families and members of the faculty and the last major event of the year will climax the day's activities.

To Receive Commission. In Gulon Hall on Saturday morning, May 16, at 8:30 o'clock, the 565 graduates of the college will receive their commissions from Brig. Gen. Andrew D. Bruce, U. S. A., commanding Tank Destroyer Center, Camp Hood, Texas. General Bruce is a member of the Class of 1916 at Texas A & M.

After the commissions have been presented, the seniors will receive their diplomas and will lead them in the final review and then will turn over their commands to the juniors who will lead the cadets past the retiring seniors.

As each organization passed in review the seniors from that company, troops or battery will step forward to take the final salute from their schoolmates and when the last march band passed the school year will have ended.

Ways of Preserving Foods Discussed by Miss Vera Sneed

The greater number of methods used to preserve food, the more interesting our daily meal can be made, Miss Vera Sneed told the women of the Corbett Home Club at the Corbett school May 5.

Drying is an economical and satisfying method of preserving many fruits and vegetables. Dried food can be stored in very small spaces. Half-gallon jars which can be sealed, cellophane bags, sealed with warm curling irons, make good containers.

Some of the fruits and vegetables best suited for drying are apples, apricots, figs, peaches and pears. Vegetables are snap beans, peppers, peas, greens, sweet corn, pumpkins and sweet potatoes.

Miss Sneed concluded her talk by saying drying fruits is not a new process. Our grandmothers used to dry fruit long ago, then canning was used and in canning seem to take the place of drying. Now since the war has caused a shortage of cans and jars, we are going back to the method of drying fruits and vegetables.

Visitors for the afternoon were Mrs. W. A. Megarity, Corsicana; Mrs. G. H. Ferrell, Mrs. James O'Rourke, and Mrs. L. K. Carraway from the Oak Valley club.

The next meeting will be held at the church May 18.—Reporter.

British Enter Harbor. LONDON, May 7.—(AP)—The Berlin radio today broadcast a Vichy report that British naval units which had been off Diego Suarez, chief port of Madagascar, entered the harbor at 3:30 p. m.

Prime Minister Churchill had said the formal entry into the port would be made about that time.

Other Texas Citations. Captain James J. Connally, Waco, Texas, DFC for a bombing mission to Jolo, P. I., in the face of severe equatorial thunderstorms and poor visibility. An enemy tanker of 15,000 tons was destroyed, and shortly thereafter the two bombers of the formation were attacked by pursuit planes. The leader's plane lost an engine, and his tail gunner was killed. Mueller held position and fought off the attacking planes for 20 minutes. On the return to the field, the effectiveness of his protection all the decorations were awarded on the recommendations of Lieut. Gen. George H. Brett, deputy commander in chief in the Southwest Pacific.

Ways of Preserving Foods Discussed by Miss Vera Sneed

The greater number of methods used to preserve food, the more interesting our daily meal can be made, Miss Vera Sneed told the women of the Corbett Home Club at the Corbett school May 5.

Drying is an economical and satisfying method of preserving many fruits and vegetables. Dried food can be stored in very small spaces. Half-gallon jars which can be sealed, cellophane bags, sealed with warm curling irons, make good containers.

Some of the fruits and vegetables best suited for drying are apples, apricots, figs, peaches and pears. Vegetables are snap beans, peppers, peas, greens, sweet corn, pumpkins and sweet potatoes.

Virginia Hyden Weds Fred Graham In Corpus Christi

A marriage of unusual interest to school and sports circles here was consummated at Corpus Christi Saturday morning when Miss Virginia Hyden became the bride of Fred Graham.

The ceremony was performed by the Rev. Mr. Wallace of the First Methodist church of Corpus Christi.

The bride wore a white suit of linen and eyelet embroidery, a large Kelly green off-the-face hat of felt and straw, and white accessories. She carried a colonial bouquet of carnations and sweet peas.

Miss Juliette Hyden of Fort Worth, sister of the bride, was her only attendant. Miss Hyden wore a beige dress with brown and white accessories.

Mrs. Graham, the daughter of Mr. and Mrs. J. R. Hyden of Arlington, is a graduate of Sunset High of Dallas, and North Texas State Teachers College of Denton.

She has been physical education instructor at Corpus Christi High school during the 1941-42 season.

Mr. Graham is a graduate of North Dallas High, Dallas, and Baylor University, Waco, where he was football player. He was backfield coach of Corsicana High School following his graduation from Baylor in 1939 until his resignation after the 1941 season closed to enter the Naval Reserves.

He was assigned to the huge Naval Base at Corpus Christi several weeks ago and is now head physical instructor at Cuddihy Field, a branch of the base.

Mrs. Graham will join her husband in Corpus Christi as soon as the Spring semester of school is completed.

Open Examinations For Positions at Corpus Christi Base

The United States Civil Service Commission announces open competitive examinations for the following positions, for employment with the U. S. Naval Air Station, Corpus Christi, Texas:

Parachute mechanic—\$9.04, \$8.56, \$8.08 per day.

Metalsmith (aviation)—\$9.04, \$8.56, \$8.08 per day.

Aircraft mechanic (general)—\$9.04, \$8.56, \$8.08 per day.

Aircraft mechanic (motor)—\$9.04, \$8.56, \$8.08 per day.

Helper metalsmith (aviation)—\$5.28, \$4.80, \$4.32 per day.

Aircraft fabric worker—\$5.36, \$4.88, \$4.40 per day.

Heat treator (aviation)—\$9.04, \$8.56, \$8.08 per day.

Aircraft instrument mechanic—\$9.44, \$8.96, \$8.48 per day.

Aircraft mechanic, ordnance—\$8.08, \$7.60, \$7.12 per day.

Instrument maker—\$9.44, \$8.96, \$8.48 per day.

Machinist—\$9.04, \$8.56, \$8.08 per day.

Toolmaker—\$9.44, \$8.96, \$8.48 per day.

Sheetmetal worker—\$9.04, \$8.56, \$8.08 per day.

Molder—\$9.04, \$8.56, \$8.08 per day.

Sailmaker—\$9.04, \$8.56, \$8.08 per day.

Electroplater—\$9.04, \$8.56, \$8.08 per day.

On the date of filing application, applicants for the position of helper, Metalsmith (Aviation) must have reached their 18th birthday, and for all other positions must have reached their 20th birthday, and for all positions must not have passed their 62nd birthday. The maximum age limit does not apply to persons granted military preference because of military or naval service.

Competitors will not be required to report to any place for a written examination, but ratings will be assigned based on information in the application, subject to corroboration.

Applications may be filed with the Recorder, Labor Board, U. S. Naval Air Station, Corpus Christi, Texas, until further notice.

LONE STAR GAS CO. ORDERED TO REDUCE ITS CITY GATE RATE

MANY TEXAS CITIES TO GET LOWER BILLS DUE FEDERAL COMMISSION ORDER

WASHINGTON, May 6.—(AP)—The Lone Star Gas Co. of Dallas, Texas, effective May 15, must reduce its natural gas city gate rate from 40 to 30 cents a thousand cubic feet, according to a Federal power commission order issued yesterday.

The order ended ten years of controversy and will result in annual savings of more than \$2,000, 000 to domestic and commercial customers in 280 Texas and Oklahoma communities.

Annual savings at various cities include an estimated \$686,000 for greater Dallas; \$315,000 for Fort Worth and \$102,000 for Waco.

The company decided to waive a hearing at a conference prior to the issuance of the order to which the Texas Railroad Commission, the Oklahoma Corporation Commission and Dallas Public Utilities Supervisor acquiesced.

The 10-cent reduction will be effective to all domestic and commercial consumers served by the company and various affiliates, including Dallas Gas Co., Community Natural Gas Co. and Texas City Gas Co.

Other communities benefiting by the order included Durant and Frederick, Okla., and Wichita Falls, Sherman, Denison, Vernon, Denton, Gainesville, McKinney, Dallas and Chillicothe, Texas.

The commission allowed the Lone Star Company a return of 6 1/2 per cent, or \$245,000 on a rate base of \$37,774,000.

The commission said the Texas Railroad Commission in 1932 began an investigation of Lone Star rates and in 1933 ordered a 32 cent a thousand cubic feet rate. This order, however, has been in litigation since that time.

The Federal order by the Texas Commission ended these proceedings.

While refraining from an official statement, a copy of the gas rate order could be studied, Mayor John C. Calhoun and other municipal authorities indicated Wednesday they were keeping close watch on the rate situation for Corsicana.

It was pointed out the new franchise issued the Community Natural Gas Company by the city in March 1941 specifically provided that rate reductions or adjustments remained with the jurisdiction of the city commission, and a new schedule of rates adopted simultaneously were contained in a separate ordinance and were not a part of the franchise enabling measure.

Under state law, the city commission has the authority to set the rates charged for natural gas, subject to certain regulations.

Little Chance For Gas Rebate Seen

WASHINGTON, May 6.—(AP)—A Federal Power Commission spokesman said today chances of Texas and Oklahoma consumers getting rebates from the Lone Star Gas Company as a result of yesterday's order for a rate reduction were nil as far as the Government was concerned.

The commission order required that effective May 15 the Dallas firm must reduce its natural gas rate from 40 to 30 cents a thousand cubic feet.

The order contained no retroactive provisions, the spokesman said, adding that no request had been made for rebates.

But the possibility of a rebate arose because the Texas Railroad Commission in 1933 adopted an order establishing a 32-cent rate, which the Gas Company contended was invalid and refused to observe.

The FPC spokesman pointed out that it was not until 1938 by a congressional act that the agency assumed jurisdiction over natural gas rates and the Commerce Dept. The FPC took over the Lone Star dispute July 3, 1941. A hearing was set for next June 8 but the new order made this unnecessary.

The spokesman said it might be questioned whether Texas towns could sue in State courts for rebates covering the period from 1933 to 1938. He added he did not believe the Oklahoma Corporation Commission ever had issued any similar order and saw no reason for the rebate question arising in that State.

AUSTRALIA

(Continued From Page One) come Allied commander-in-chief in the Southwest Pacific.

"Corregidor needs no comment from me," MacArthur's statement said. "It has sounded its own story at the mouth of its guns. It has uttered its own epitaph on enemy tablets."

"But through the bloody haze of its last reverberating shot I shall always seem to see the vision of its great gaunt and ghostly men still unafraid."

One source here estimated there were 10,000 American and Filipino troops on Corregidor and the nearby fortified islands which fell with it.

The "Voice of Freedom" army radio station in the Philippines has been still with the conquest of Corregidor and all communications have ceased.

CARD OF THANKS. We wish to take this means in expressing our thanks and deep appreciation for the

INTERNATIONAL

(Continued From Page One)
harbor of Diego Suarez was captured by night attack last night, a British admiralty war office communiqué said.

The French naval and military commanders at Antananarivo have surrendered, the communiqué said, and all French resistance at the base collapsed.

In Vichy, the French government insisted that Diego Suarez was still holding out at 1:30 p. m. Vichy time (7:30 a. m. Eastern War Time) and declared the announcement, based on the latest information from Madagascar, was "in answer" to the British report of surrender.

British commands and infantry striking from the south launched the main attack on the key naval base, which commands all sea lanes to the Middle East, India and China.

Royal Marines landed north of the town to create "a valuable diversion," the communiqué said.

While the fall of Diego Suarez constitutes a major victory in the British campaign, which commenced at dawn Tuesday, considerable further resistance may be expected from the remainder of the island's 5,000,000 French and native population.

Under orders from France's pro-German Premier Pierre Laval to fight to the end, the island's defenders presumably will offer stiff opposition at Tananarive, the capital, on a plateau in the center of the island, and at Tuléar, the site of a big air base, in the south-west.

British headquarters said BEF infantry preceded by naval bombers charged a strong French position, protected by 75-mm field guns and machineguns, a few miles outside Diego Suarez, and opened the way for its capture.

A French submarine and a sloop were reported sunk in Diego Suarez harbor during the final attack.

In London, Prime Minister Churchill told parliament that a protocol was being drawn up between the opposing commanders and that the British fleet was expected to enter Diego Suarez harbor about 3:30 p. m.

Churchill said losses in the opening assault on French positions Tuesday night have exceeded 1,000 men.

"We trust the French nation will in time come to regard this episode as a recognizable step in the liberation of their country, including Alsace-Lorraine, from the German yoke," Churchill asserted.

While Britain thus swiftly demonstrated the rise of her offensive striking power on Madagascar, the Italian high command indicated that other British assault forces were active in the Mediterranean.

"An enemy raid which was attempted against the island of Kephos, south of Crete, was promptly repulsed by our garrison there," an Italian communiqué said Tuesday.

Possibly the attack was carried out by sea-borne British troops. Kephos lies five miles off the southeast tip of Crete, which German forces captured from the British after the fall of Greece last year. It is about 250 miles from the nearest point on the North African coast.

Commandos Ready.

Recent dispatches have reported that British commandos, including Prime Minister Churchill's son Randolph, were being trained in North Africa for just such raids.

In the Pacific, Gen. Douglas MacArthur's headquarters reported briefly that increased Japanese naval activity had been observed in the waters around New Britain, perhaps signaling a new southward thrust against Australia's lifelines or against the "down under" commonwealth itself.

The 100-mile waterway between New Britain and New Guinea would be the natural gateway for a Japanese seaborne attack against Australia's east coast.

Military observers pointed out that with the fall of Corregidor, large numbers of Japanese troops and equipment have now been released for duty elsewhere, and they recalled that so far in the war the Japanese have been swift to strike in a new direction after each success.

Activity by Japanese warships was also reported near Bougainville in the Solomon Islands, 300 miles east of New Britain.

On Burma Front.

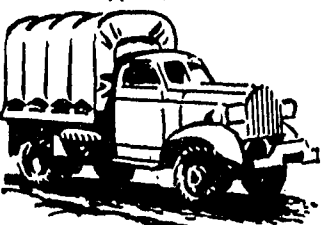

On the Burma war front, Chinese military dispatches acknowledged that Japan's invading armies pushing up the Burma road had driven almost 25 miles into China proper after capturing the Chinese town of Wanting, on the China-Burma frontier.

Bitter fighting was reported again as the American Lieut. Gen.

What You Buy With WAR BONDS

United States army trucks resemble the prairie schooners of our pioneers for utility, not for sentiment. These motorized covered wagons "get where they are going" with men and supplies.

The 2½ ton truck costs about \$2,000 or slightly more than the purchase value of 100 of the \$20 War Savings Bonds. We need thousands of these trucks. You can help pay for them by buying U. S. War Savings Bonds every pay day. Help swell the War Bond quota in your county.

Joseph W. Stilwell's outnumbered Chinese troops sought to stem the Japanese tide sweeping through China's back door.

On the right flank, Gen. Harold Alexander's weary British troops were reported still falling back toward India.

Other developments in the worldwide picture included: Russian dispatches reported that the Red armies, attacking across the front in the Caucasus, had captured a junction point which the Germans had held all winter, and thus had cut the road between the northern and southern wings of the German siege armies.

Hitler's field headquarters said heavy casualties had been inflicted on the Russians in violent fighting in the north and reported a "fall on large sections of the front" elsewhere.

On the North African battlefield an Italian communiqué announced that British armored forces had advanced to a point east of El Mechili—one of the deepest British thrusts to the west since their retreat last February.

The communiqué said the British had been driven back under heavy artillery fire.

El Mechili is about 120 miles west of Tobruk.

In aerial warfare, British bombers attacked the big German war foundries city of Stuttgart for the third successive night, and streaked across the channel again by daylight to pound the German-held French "invasion coast."

German attacks on England were light.

Pilot Rescued After 12 Days.

MELBOURNE, May 7.—(AP)—A Royal Australian Air Force pilot is recovering in a hospital today after spending 12 days without food on a rocky barrier reef where he sought refuge when his plane crashed in the sea.

The pilot gained the reef by swimming seven miles through shark-infested waters while clinging to an air cushion. Three companions drowned.

The lone survivor was without water until the fourth day on the reef, when rain filled small depressions in the rocks. He finally was spotted by another plane which sent assistance.

Nazis Sink 20 Ships.

BERLIN (From German Broadcasts), May 7.—(AP)—DNB quoted an official announcement today from Adolf Hitler's headquarters that "German U-boats have sunk 20 enemy merchant ships off the east coast of North America and in the Caribbean Sea."

The ships were said to total 138,000 tons. The length of items covered by the sinkings was not specified.

British Cruiser Lost.

LONDON, May 7.—(AP)—The cruiser Edinburgh has been lost in a battle with German forces in the Arctic, the admiralty announced today.

New Type Nazi Fighter Plane.

BERLIN (From German Broadcasts), May 7.—(AP)—DNB said today a revolutionary type symmetrical aircraft was being built in the Blohm and Voess shipyards with the engine in the starboard wing and a closed observation turret for a three-man crew in the port wing.

Equipped with cannon and machine-guns, it was claimed to have great speed, climbing power and maneuverability, DNB said.

RAF Blasts Stuttgart Again.

LONDON, May 7.—(AP)—British bombers in considerable force last night attacked Stuttgart, manufacturing center, and other targets in southern Germany, for the third successive night, it was announced today.

"No communication has been received from the Philippines by the War Department since early in the morning of May 6. It is presumed that all persons on the four fortified islands are now prisoners of war."

"The Japanese government has announced that it intends to follow the provisions of the Geneva convention in its treatment of prisoners of war. This convention provides for exchange of lists of prisoners of war. As soon as any list of prisoners is received from Japan, through neutral countries or through the International Red Cross, it will be made public by the War Department."

"2. There is nothing to report from other areas."

Person said that "the defense of Corregidor as the defense of Bataan, was a most gallant exploit in American history." He added: "Other Historic Defenses."

"It compares with the defense of Charlestown in the Revolution in 1780, when the defending forces finally had to yield to greatly superior numbers and with the defense of Petersburg by Lee's army in 1864."

"Our information is that fire from the heavy guns placed by the Japanese on Bataan Peninsula was the factor that forced the surrender. It was heavy, incessant, and knocked out the defenders. It probably had more effect than any bombing from the air."

Patterson said the War Department had received a vast number of inquiries from relatives and friends of men in the Philippines, and that as soon as it received information on casualties in the Philippines, or received the names of men taken prisoner by the Japanese, the families of the men would be notified immediately by telegram. It was impossible, because of the strain on military communication facilities, he said, to send inquiries concerning individuals any combat area.

"The best advice to take is that 'no news is good news,' and that is not just a psychological attitude," Patterson said.

RUSSIA

(Continued From Page One)
part, during operations which have expanded with improved weather. Soviet reports said 1,650 Germans were killed in three villages.

Despite spring floods and the absence of roads in many sectors, the Russians are reported to be pressing repeated attacks and inflicting heavy losses in men and material on the Germans.

The exact location of the sector west of Leningrad and the size of the encircled German detachment were not given, but the action appeared to be one of the most extensive of recent sharp local engagements on the Leningrad front.

Soviet Cavalry Attack.

Soviet cavalry attacking the rear of German forces endeavoring to consolidate on the Kalinin front northwest of Moscow occupied nine villages and killed 938 men, reports said.

In the Bryansk sector 210 miles southwest of Moscow, guerrillas have liberated 25 villages and have forced the 200th Hungarian division to make a deep withdrawal after seven days of fighting, it was said.

Some of the hottest fighting on the whole front was reported to have been under way in the Lake Ilmen sector south of Leningrad for almost a month.

Dispatches from this area described German losses as "really colossal" and some reports estimated that the German casualties had averaged 1,000 a day.

The Germans were said to have put parachutists into action repeatedly and without success on this front. The Russians said

MADAGASCAR

(Continued From Page One)
at Ambarata Bay to the south.

Diplomatic circles here were watching Vichy closely for retaliatory action by the Pierre Laval government.

Free French said this might take the form of some naval aid to the axis, probably the allocation of French cruisers and destroyers to the German fleet.

Informed British diplomatic sources expressed doubt whether the French fleet "would fight with or for the Germans."

Prime Minister Churchill praised the gallantry of the French and expressed regret that blood had been shed.

Liberation Step.

"We trust the French nation will in time come to regard this episode as a recognizable step in the liberation of their country, including Alsace-Lorraine, from the German yoke," Churchill declared.

British infantry preceded by naval bombers charged a strong French position—protected by 75-millimeter field guns and machine-guns—a few miles outside of Antananarivo, the chief town of the harbor area, and opened the way for its capture.

The French batteries and machine gun nests were pulverized by British bombs and shell-fire from guns the British were able to land.

French coastal batteries on Oran peninsula, which jut upward from the south to command approaches from the Indian Ocean are now being attacked by the British from the rear, British here believe.

Protocol Being Drawn Up.

LONDON, May 7.—(AP)—Prime Minister Churchill told the House of Commons today that a protocol was being drawn up between the commanders in Madagascar and that the British fleet was expected to enter Diego Suarez harbor about 3:30 p. m.

Vichy Denies Fall.

VICHY, Vichy Denies Fall.

7.—(AP)—An announcement that Diego Suarez, main stronghold on French Madagascar, still was holding out at 1:30 p. m., Vichy time (6:30 a. m. CWT) was issued here today.

It was insisted that this was based on the latest information from Madagascar and was issued "in answer to a report" (presumably the British announcement) that the naval base had surrendered.

It said there were no details beyond the statement that fighting was continuing.

TAXES

(Continued From Page One)
ed to the committee at a morning session but did not indicate what reception it received.

Morgenthau took occasion in the letter to emphasize again the need of expanding the social security program and of increasing taxes for that purpose by about \$2,000,000 a year and expressed the hope that the committee would proceed as soon as possible after completing a tax bill to consider that question.

In presenting the administration's program to the committee March 3, Morgenthau said a further lowering of the personal exemptions would yield "a relatively insignificant amount of revenue from the earners of very low incomes."

He said then, however, that if he believed that expenditures of that group added materially to the danger of inflation, he would not hesitate to recommend lower exemptions "in spite of the small amount of revenue that would be produced."

Nazi mass attacks were met with a withering artillery fire at point blank range.

NAVARRO, May 7.—(Sp.)—Mrs. T. P. Westbrook spent last week in Wickett with her husband. Mr. and Mrs. Carl Maxwell of Sweeny were week end visitors here with their grandparents, Mr. and Mrs. T. M. Jones. Mrs. Mabel Boltz of Corsicana visited in the W. B. Turner home, and with other friends, last week. Mr. and Mrs. Archie Horn, baby daughter and Mrs. J. E. Horn are on their vacation in the Valley and other places this week. Miss Dorothy Harvard, senior in Teachers College, Denton, spent the week end with her parents, Mr. and Mrs. Wade Harvard, and Lena Rose. Mrs. Oliver Forbes of Breese, Ill., is spending several days with relatives here, in Houston and Corsicana. Mr. and Mrs. Lowell Knight of Crane, Mrs. Grace Westmoreland and Miss Imogene Knight of Dallas were week end visitors with their mother and other relatives. Ruby Harvard Collins, with her two sons and daughter of Fort Worth, spent Saturday and Sunday with the Harvard relatives. Mrs. Sam Stroder and son of Wink returned home Monday after visiting father, B. Marsh, and other relatives. Mrs. Sammy Howell and two children of Rural Shade visited Mr. and Mrs. W. B. Burns Sunday. Mr. and Mrs. Fred Robinson of Dallas visited their parents, Mr. and Mrs. Marion White, Sunday. Mr. and Mrs. Louis Collins of Griffin, Ind., visited home folks in the Grady Collins home last week. Vincent Bottoms and Alva Scruggs are in Dallas this week serving as federal jurors. Mrs. V. T. Kugler and son of Bakersfield, Calif., spent last week here with her brother, Mr. and Mrs. Howard Collins. Mrs. Sam Harvard, Mrs. Atton Smith, Mrs. Kate Moore and Sammy Harvard were in New London recently visiting their relatives. W. Wigginton of Mineral Wells came home Sunday for a few days stay. Mrs. Shorty Boast of New London spent last week with her mother, Mrs. Arthur Ferguson, who is confined to her bed.

Richland

RICHLAND, May 7.—(Sp.)—The past week has been a wet one and we were glad to see a little sunshine. Mr. and Mrs. James Edgar of West, were the guests of home folks recently. Mrs. Will Cunningham visited sick folks in Fairfield last week. Mrs. J. W. Garland and Mrs. Hugh Garland were Corsicana visitors Wednesday of last week. Mrs. E. L. Kollman was also a visitor in Corsicana Wednesday. Mr. Kollman has sold the Red and White store to Mr. Imman. Bill Ward, who is working near Galveston was at home Saturday. Several out of town guests were here Friday to attend the wedding of Miss Hendon and Mr. Stokes. Miss Mary Oulaw of Fort Worth and Miss Eris Otto of Houston, who were here to attend the wedding Friday night, were in an automobile wreck near Currie Saturday and are both in the hospital in Corsicana. Their mothers came up Monday to be with them. Mrs. Hugh Garland and sons, Raymond Louis and Lynn Earl, of Alhambra, Calif., and Mrs. J. W. Garland and Joseph of Richland, Mrs. A. L. Huffman, Miss Sue Huffman and Miss Nancy Mize of Corsicana, were guests of Mr. and Mrs. Walter Garland, Jr., on the farm near Corsicana Sunday for dinner. Mr. and Mrs. Thomas Gregory and family of Mississippi are the guests of Mr. and Mrs. J. D. Anglin and family this week. Mr. and Mrs. R. E. Harlin and baby of Lingview were guests of Will Harlin and Mr. and Mrs. Reuben Griffin the past week. Mr. and Mrs. Stanley Chiam and little son were the week end guests of relatives in East Texas. Mr. and Mrs. Reuben Griffin were guests of relatives in Jewett Sunday afternoon. "Grandma" Harlin has been quite ill the past week. She is slightly improved.

Blooming Grove

BLOOMING GROVE, May 7.—(Sp.)—Ralph Dewitt of Maxwell Field, Montgomery, Ala., spent Saturday and Sunday with his aunt, Mrs. Ruby McSpadden. Rev. M. B. Howell and family are spending several days this week with his mother in Oklahoma. Miss Frances Huffstutler of Strawn spent this week end with her parents, Mr. and Mrs. W. E. Huffstutler. Mrs. Smith of Fort Worth and Mr. and Mrs. W. E. Bowman of Frost were Sunday guests of Mrs. Ed Carroll. Mr. and Mrs. Wash Pierce of Goose Creek visited Mr. and Mrs. Grant Tuesday night. Mr. and Mrs. John Glenn of Waxahachie visited his mother, Mrs. A. A. Glenn Sunday afternoon. Mr. and Mrs. Kirkley Barnes and Mrs. E. V. Spikes were in Dallas Wednesday to attend the funeral of Joe Barnes. Mr. and Mrs. Benton Davis of Driestown spent Sunday night with her father, E. L. Carroll. Jay Sewell, Jr., of Sheppard Field, Wichita Falls, is here this week with his wife and parents, Mr. and Mrs. J. L. Sewell. Sergeant Robert Page of Tucson, Ariz., is enjoying a 10-day furlough with his parents, Mr. and Mrs. Bob Page of State Orphans Home, Corsicana, and his sister, Miss Geneva Page of Blooming Grove. Miss Jo Frances Fitzgerald of Dallas spent the week end with her parents, Mr. and Mrs. Deo Fitzgerald. Miss Lella and Cora George and Miss Lena Tillman of Dallas were at home for the week end.

Frost

FROST, May 7.—(Sp.)—Mr. and Mrs. Glenn Allen and sons of Tyler and Miss Wilma Allen of Hubbard spent Sunday with their parents, Mr. and Mrs. A. F. Allen. Mrs. Eunice Ellis of Sweetwater is visiting Frost relatives and friends. Miss Joyce Matlock of Temple spent the week end with her parents, Mr. and Mrs. J. W. Matlock. Mr. and Mrs. Ben Templeton of Corsicana are visiting his parents, Mr. and Mrs. R. L. Templeton. Mr. and Mrs. J. C. Hightower of Fort Worth spent Sunday with his mother, Mrs. M. G. Blankenship. Mr. and Mrs. E. J. Hightower visited Clarence Meador at the Navarro Clinic in Corsicana Sunday. Miss Dorothy Lookingbill of Waxahachie spent the week end with her parents, Mr. and Mrs. W. Weaverika of Ennis spent Sunday with their daughter, Mrs. J. B. Scott and family. L. A. Morgan and sister, Mrs. Lela Ethridge, visited relatives in Waco Sunday. Mrs. W. V. Harrison was brought home Tuesday from the Navarro Clinic in Corsicana where she had been a patient for several days. Fred Miller Grimes of Dallas visited his mother, Mrs. Iva Grimes, Friday. Miss Merle Calhoun went to Paris Saturday to accept a position. Josh Bason of Dallas spent the week with family.

Angus

ANGUS, May 7.—(Sp.)—Mrs. Wolford of Tyler, Mrs. Homer Harris and Miss Marie Bomer of Corsicana and Mr. and Mrs. J. Ramsey of Fort Worth visited Mr. and Mrs. Homer Constant Sunday. Mr. and Mrs. H. C. Reed and daughter, Lola, spent Sunday in Dallas with their son and brother, Charley Reed. Mr. and Mrs. Albert Mosely and son of Fort Worth visited their parents, Mr. and Mrs. Will Thorn, recently. Mr. and Mrs. Elbert Harris and daughter, Bobbie, and Mrs. Elmer Lockwood and daughter, Annette, of Fort Worth spent the week end with relatives. D. H. Northern spent the week end with homefolks. Mr. and Mrs. J. B. Knotts had as their guests Sunday their son, Mr. and Mrs. Loyd Knotts and family. Mr. and Mrs. N. G. Dillard and Mr. and Mrs. C. D. Dillard and son of Trumbull visited relatives Thursday night and Friday.

Pickett

PICKETT, May 7.—(Sp.)—Miss Wanda Sue Mahoney of Ennis spent Saturday night and Sunday with Miss Eleanor Joyce Martin. Private Grady McKee of Palacios spent the week end with his parents, Mr. and Mrs. J. B. McKee. Mr. and Mrs. Otis McLaughlin spent the week end at Eustace visiting Mrs. McLaughlin's mother, Roy E. Story of Camp Folk, La., is visiting his parents, Mr. and Mrs. S. E. Story. Mr. and Mrs. V. L. Tramev of Buffalo visited Mr. and Mrs. Ben McGee during the week end. Jerrell Owens spent Sunday night in Corsicana with his brother, Robert Owens. Dean and Betty Ruth Story visited Mrs. D. O. Rogers in Corsicana Saturday.

SHIPS SUNK

(Continued From Page One) the following enemy vessels: One medium sized cargo ship, one medium sized tanker and one small cargo ship. The above actions have not been announced in any previous Navy department communique. "5. There is nothing to report from other areas."

THE WAR TODAY

(Continued From Page One) ing that their mission is to bear sons to wage war for Germany.

Child Training.

This amazing regimentation has been achieved through officialdom getting hold of the little children and forcing their minds into the Hitlerian channel, without permitting any other influences to intervene. This scheme of monopolizing the young mind is one of the reasons for Hitler's war on the churches, which have fought to keep from surrendering all training of the children to him.

With the young folk thus regimented, such discipline as there may be—and there is small doubt that it exists—is mainly about the older people who have submitted to Hitler's rule but haven't become Hitlerized.

We must assume, however, that it will take much to shake the loyalty of young Germany as a whole in Hitler's leadership. It might come in time, but it would be a mistake to look for it now. And when the war is over and the Allies have won—as they will—they will encounter the hold-over of this spirit of Hitlerism among the younger people of the Fatherland. As Mrs. Roosevelt indicates, it will take long to teach them that they have been worshipping false gods.

Barry

BARRY, May 7.—(Sp.)—Mr. and Mrs. Hoyle Reed and James D. Ragdale attended the baccalaureate services of the Bullard High school Sunday night. Mr. and Mrs. Egg of California visited with her father, W. M. Watson last week. Miss Julia Patrick of Canton spent last week with Mrs. Mary Ray. Mr. and Mrs. Bill Ragdale of Corsicana were here Sunday. Jim Parker, who is working at Bastrop, spent the week end with his family.

Mrs. R. H. McCarty and children of Lubbock spent several days here last week. Tom Lynch spent the week end with relatives at Paris. Buster Grimmett has returned to camp in Florida after spending a 10-day furlough with his parents. Mrs. T. J. Castellaw went to San Antonio Saturday for a visit with relatives there. Miss Louise Knight spent the week end with her parents at Denton.

Tuleo

TULEO, May 7.—(Sp.)—Monday being a day that farmers could get in their fields to work, they began looking where to hit first, to work began.

Four teachers came here from Rice school Monday and held the registration for the sugar rationing. The ladies of the community continue doing sewing and knitting for the Red Cross. Rev. E. M. Dalley is teaching a course in Bible study in the church here, which will be a help to all who attend. Mrs. M. A. Riley of Wortham is visiting her son, A. H. Jones and family.

Miss Emma Joe of Corsicana visited Mr. and Mrs. R. B. Burdine Friday evening. Mr. and Mrs. J. I. Monte of Corsicana spent a part of last week with M. C. Burdine and wife.

CHINESE

(Continued From Page One) a campaign to knock free China out of the war.)

(In Tokyo the Domei quoted officials as declaring that the chief objective of the Burma campaign had been practically attained with the entry into Yunnan and occupation of Akyab on the Burma west coast. This suggests that a major Japanese purpose was not merely to close the Burma road to American and British aid to China but to use it as an avenue of invasion.)

The Chinese spokesman said fighting continued in southern Hunan Province, where the Japanese launched a series of attacks from Sinyang, 150 miles north of Hankow, late last month.

Operations Minor. He insisted, however, that these operations were minor, the Japanese intention apparently being to give fresh troops battle practice and to forage for supplies. (When the Honan attacks began it was suggested that they might develop into a westward push toward Chungking.)

The spokesman expressed doubt that the Japanese would be able to complete their occupation of Burma and insisted that if they attempted a major invasion of China from that direction they would encounter much more formidable Chinese resistance than that of the fifth and sixth armies sent into Burma.

Chinese reports continued to tell of widespread Japanese air activity. New attacks were reported in Chekiang and Kiangsi Provinces (where the Japanese have been bombing potential United Nations air bases for weeks) and Japanese planes also ranged widely over Yunnan.

Several of the chief towns of Yunnan were bombed yesterday in raids that suggested either an attempt to paralyze the movement of reinforcements toward the Burma border or to prepare the way for invading forces.

Seek to Create Fighting Spirit.

NEW DELHI, May 7.—(Sp.)—The government of India launched a vigorous campaign today to create a fighting spirit in this country whose major political group—the Congress Party—decided a week ago that the only way to oppose a threatened Japanese invasion would be by "non-violent non-cooperation."

Morning newspapers carried full-page advertisements warning the public that work not words, would stop the Japanese. The same theme will be featured in broadcasts, posters and additional advertisements a government spokesman said.

Report India Invaded. BERLIN (From German Broadcasts)—May 7.—(Sp.)—The Tokyo radio said today that Japanese forces from Burma had crossed the Indian border west of Palaw and penetrated to 62 miles from Chittagong. (Palaw, about 80 miles north of the west Burma port of Akyab, is on the Kalladan river on the Indian-Burmese frontier. Palaw is little more than 70 miles air line from Chittagong.)

For Mother

POLITICAL

(Continued From Page One) to a platform speaker. A veteran of this type of campaigning, Moody can swing an audience with a flow of rhetoric, punctuated with a flow of barbed wire.

Allred has not announced his speaking tactics. He can hold his own in any media, however. Sleeves rolled up, a look of unduly hair hobbling, he can make his listeners forget summer heat.

O'Daniel Radio Showman. What his campaign tactics will be this summer is not yet known. But one thing about the campaign is certain. The public will not be bored.

Steadham Quits Race. AUSTIN, May 7.—(Sp.)—Joe Steadham, state legislative representative for the Brotherhood of Railroad Trainmen, today withdrew as a candidate in the U. S. senate race.

"Finding that my employment will not permit sufficient time for me to make a campaign, and because of the economic conditions to employ radio time, I am, therefore, withdrawing from the campaign," Steadham declared in a formal statement.

"Besides," he added verbally, "what chance would a railroad brakeman have against three former governors?"

TRANSPORT

(Continued From Page One) Washington, D. C., commander of the First Air Force.

Capt. P. O. Leavitt, listed as the pilot. Lieut. Homer C. Burns, co-pilot. Staff Sgt. Stephen Hoffman, March Field, Calif. Pvt. Samuel J. Van Hamm, March Field, Calif.

Officially Confirmed.

WASHINGTON, May 7.—(Sp.)—The War Department announced officially today the finding of the wreckage of an army plane bearing Major General Herbert A. Dargue, commander of the First Air Force, and seven others, which disappeared nearly five months ago on a transcontinental flight.

The wreckage was found in mountainous country near Bishop, Calif. All aboard were dead. The plane, a big army transport, disappeared December 12 on a transcontinental flight, on the eve of a four-inch snowfall and had since been buried under snow.

The wreckage was uncovered by the spring thaw and was first sighted from the air, the War Department said. Ground parties have been sent to the scene.

PRIVATE AUTOS

(Continued From Page One) motorists to from two to six gallons of gasoline a week after May 15.

Price Administrator Legn Henderson and Undersecretary of War Robert P. Patterson were among the seven government officials who urged the senate military committee yesterday to approve the automobile seizure-and-pay bill as part of the campaign to save rubber for military uses.

Tired Being Pushed Around. Johnson told reporters he was satisfied there were sufficient legal authorities now for the government to take over any equipment it needed in the war program, and he saw no necessity of new legislation.

"I'm getting tired of unnecessarily pushing people around to satisfy the egotism of some bureaucrats," the Colorado senator declared. "The American people are anxious to make any sacrifices essential to the war effort, but they are getting tired of being pushed around."

With somewhat the same attitude Senator Taft (R-Ohio) said he believed the objective could be accomplished by voluntary appeals to motorists to give needed tires to the government. He said he had and to exercise care with those on their cars. Henderson and the other government officials were reported to have told committee members the shortage used so much that within a year there would be no new rubber for any civilian, regardless of priorities. Nor would any synthetic rubber be available for other than military needs.

SUGAR

(Continued From Page One) than six pounds, stamps were removed from the books issued to care for the surplus between two and six pounds. Those registered and not issued books will be eligible for books at the expiration of the time when the sugar on hand is used up at the rate of the issuance allowed under the rationing system. It was stated.

There were 4196 individuals enumerated Wednesday, with 4128 books issued. There had been 15,714 people registered within the city limits of Corsicana, with 15,425 ration books issued, leaving 289 with a surplus of sugar. This is in excess of the 1940 federal census of Corsicana by several hundred, but C. E. Strickland, assistant county school superintendent, revealed that many persons residing outside the city limits had been enumerated in Corsicana.

The first stamp in the ration book can be used from May 5 to 16. The second stamp between May 17 and 30. The third stamp between May 31 and June 13 and the fourth between June 14 and June 27. It was pointed out, however, that the stamps are not usable except within the time limit designated, and a stamp not used in that manner becomes void.

Merchants must turn in to the wholesalers stamps not more than 10 days after the expiration of the dates of the stamps for a particular period, it was pointed out.

New Submarines Ordered.

WASHINGTON, May 7.—(Sp.)—The senate completed congressional action today on legislation authorizing an increase of 200,000 tons of new submarines.

WAR ROUNDUP

(Continued From Page One) armies already emerging from Burma into China.

2. An attack on Russia, which military men unanimously agree the Japanese will undertake soon or later. The timing is almost certain to depend on developments on the Russo-German front.

3. An assault on Australia itself probably designed to wipe out North Coast bases for allied offensive action rather than to lead to the conquest of the entire continent.

4. Raids in force, if not full scale attacks, against either Hawaii or Alaska or both because of their offensive threat.

5. The conquest of India, or at least its eastern coastal areas and sections near Burma, an undertaking which might well depend on whether the Japanese could expect a friendly or an actively hostile populace.

The mere magnitude of these possibilities suggests, military men said, that before the United Nations can turn the tide of war in the Pacific they must expect to suffer heavy new blows. For some time yet their own offensive thrusts appear destined to be limited to aerial actions. Against this dark prospect in the Pacific, many military experts were inclined to balance several brighter elements in the European picture. Chief among these were scale attacks, against either Britain's American-backed aerial offensive against Germany and Germany's own failure to make good to her spring offensive threats although the season ahead is well advanced.

CORSICANA, TEX., MAY 8, 1942

THIS IS WAR

The proud British people have eaten bitter bread since a year ago last September. But it's a long way now from the Dunkirk of June, 1940. After that catastrophe Britain was left naked to her enemies, all her war equipment lost, her air force shattered, hardly anything left but her bare hands, her pride and her will to live. It was the worst plight in her modern history.

It is a long road of recovery that the British have covered since those bitter days. But Britain is now herself again, and stronger than ever for her resurrection. Winston Churchill's patience is justified. The turning of the road has come. We can read the current record of it now in every day's news.

It is British war planes, not German, that fill the air now and ferry destruction and death across the Channel. British planes blast the harbors and munition works and airplane factories of continental countries that are captive to Hitler's war machine. And now at last they carry the war into Germany itself, in greater power than the Nazis ever spent on England. They raid across the narrow Channel almost at will, while the captive population cheer them on.

Meanwhile Russia miraculously holds a great German army in the East, and America, with power rising week by week, pours men and munitions across the sea to help. Retribution is at work, and the Big Push is beginning, the push that may win even this year, but early or late will win certainly and completely.

EVEN THE CONQUERED HELP

The war started with Germany's invasion of Poland. Most of us think that the Poles collapsed almost without fighting, so overwhelming was the German superiority. Stefan Kleczkowski, an exiled Polish patriot, has just pointed out that that does not state the case correctly. Poland held out for five weeks against Hitler. France did not do so well. The Dutch lasted less than a week. These failures show that the Poles did better than anyone had a right to expect.

They did more than that. They threw Germany off her schedule. By throwing in 39 divisions of infantry, cavalry, air force and motorized units, Poland blunted the first thrust of the German attack, causing Hitler serious losses in man power and equipment. These gave France and England eight months to prepare for their turn. France wasted a golden opportunity. England put it to use. The English resistance in the famous Battle of Britain in September, 1940, would never have succeeded without the time for preparation that Poland made possible.

Supposing the Poles had not fought, had let Hitler have his way without fighting as he did in Australia and Czechoslovakia. They would have been destroyed just the same. Their armies and equipment would have become Germany's war booty and would have been used against France and England, just as Rumania's forces are now being used against Russia. Polish resistance spoiled all this. In the last war Belgian

JUST FOLKS

(Copyright, 1937, Edgar A. Guest)

LUXURY'S REWARDS.

'Tis good to look ahead to ease
And dream of goals ambition sees.
'Tis nice to think the years afar
Will find you richer than you are,
But work's a better friend than play.

In spite of all that cynics say,
From luxuries men boast about
Come rheumatism and the gout.

My boy, remember what I say,
Hard work's a truer friend than play.

Though duty is a master grim,
He leaves you strong and keeps you trim.
The doctors get their largest fees
From luxury-hardened aches and
Men pay for wealth with chronic pains
And swollen joints and knotted veins.

From work comes health and appetite;
Ability to sleep at night;
The pride of something useful done.

From work high character is won,
But luxury, however admired,
Leaves flabby muscles, quickly tired,
And gastric ulcers, arches flat
Tend bulging stomachs, much too fat.

Resistance at Liege is thought to have delayed the Germans long enough to make them lose the battle of the Marne, and eventually the war. Perhaps Poland will, in this respect, rank as this war's Belgium.

IDLE CARS

Jacking up a car to rest idle for the duration will not help to win the war. The car merely deteriorates its life out instead of wearing out.

Driving fast is now out of the picture. Buying two new tires per year, which used to be a virtue, is now not even a vice—there's no exercise of will involved. It does not happen. The ordinary pleasure driver must get along with what he now has for a long time.

But idle cars are not useful. In the opinion of an expert, this is what happens to them: In about three months the battery will lose its charge. The tires will begin to go bad. The inside of the crank case will begin to accumulate moisture from the air. If the engine is not used for a long time, this water condensing from the air will pit the cylinder walls rust the piston rings and corrode the surface of bearings.

It is the part of wisdom, then, to use the car. Most drivers know roughly how much gas they use in a year, how many miles they usually drive. If they think first, before jumping in and rushing off, they will find they can get along on half that mileage. If they cut the speed down by a fourth, they will save more things than gas. They will conserve tires, road-surfaces and their own nervous systems.

There will be some gas, even in the East. Tires used, not abused, may hold out the three or four years necessary before synthetic rubber comes.

The car is a creature intended for motion; inaction is bad for it. Speed and abuse must go for the present. Moderate use will keep it in condition.

TIRE TIME

The latest authoritative comment on the great tire problem comes from John W. Thomas, chairman of the Firestone board, who says: "It is the duty of every American to act upon the assumption that his present tires must last him for the duration."

If that's true, the Land of the Free and Home of the Brave is full of slackers. Most of the cars on the road seem to be going as fast as ever. You might think, from general observation, that instead of the tires lasting for the war's duration, the drivers expected the duration to accommodate itself to the tires.

Language is a funny thing. To tell a man "You are working like mischief" is not at all the same thing as to say, "Like mischief, you're working."

A Navy poster makes the excellent suggestion that the mouths of loose talkers be closed for the duration.

The alphabet soup at Washington gets thicker and thicker.

Put less sugar in your cup. Stir it well and drink it up.

"KISS OF DEATH"**REORGANIZATION OF SOIL CONSERVATION SERVICE ANNOUNCED**

WASHINGTON, May 5.—(AP)—Reorganization of the soil conservation service to give farmers and ranchers more help with war time production and conservation problems was announced today by the agriculture department.

The realignment involves the closing of four major regional headquarters, establishment of one new regional office, consolidation of two regions, discontinuance of 79 field offices and reduction in personnel at the remaining offices, including Washington.

Officials said this would permit the release of skilled technical employees from those offices to work directly with farmers and farm groups in the field.

Regional offices to be closed include Amarillo, Texas. Kansas will be shifted from the southern plains region, (Amarillo) to the northern plains region, with headquarters remaining at Lincoln, Neb., the eastern portions of Colorado and New Mexico will be added to the southwest region, with headquarters remaining at Albuquerque, N.M., and the Panhandle areas of Oklahoma and Texas will be made a part of the Western Gulf Region, with headquarters remaining at Fort Worth, Texas.

Joan Carswell of Corsicana Married To Ensign E. W. Cox

Of interest to friends is the following item which appeared in the May 3 issue of the Daily Texas student publication of the University of Texas:

"Joan Carswell, University sophomore from Corsicana, and Ensign Edey Wilbur Cox were married April 26 at the University Methodist Church.

"Cox, who received a Bachelor of Journalism degree from the University in 1941, is an ensign in the United States Navy. He is stationed at the Naval Air Station in Corpus Christi, where the couple will make their home.

Pvt. John M. Miller Returns to Florida After Furlough Home

Pvt. John M. Miller of Camp Blanding, Florida, 165th Field Artillery, returned to Camp Sunday night after spending 10 days at home with his wife and parents, Mr. and Mrs. J. J. Miller at 1912 West First Avenue.

Mr. and Mrs. Miller also had as their dinner guests Sunday all of their children and grandchildren. A pleasant day was spent by the family group.

Powell Student to Complete Studies At East Texas

COMMERCE, May 6.—(Spl.)—Denver Joe Walker, son of Mrs. W. T. Walker of Powell will complete the requirements for a Bachelor of Science degree at East Texas State Teachers College in May.

Walker will have a major in history and minors in business administration and English.

County to Get \$10,400 WPA Aid Damaged Roads

SAN ANTONIO, May 5.—(AP)—Authorization for expenditure of \$10,400 for repair work on flood-damaged roads in Navarro county was announced today by E. A. Baugh, state operations officer for WPA.

The authorization, sent to W. H. Beazley, district manager for WPA at Waco, is for use in the repairing of damage to bridges, bridge approaches and roads on school and mail routes. Between 200 and 300 workers are expected to be employed, it was announced.

Navarro county commissioners conferred with a representative of the Waco WPA office Friday and Saturday drew up a formal application for the project.

WPA furnishes the labor while the county provides the material, machinery and transportation for the labor. It was indicated the work would be principally on abutments, approaches and bridges in the county damaged by the weeks' or rain and high waters. Members of the court could not be contacted early Tuesday afternoon relative to this proposition.

Rosa Mae Sherrard Weds Emory Speir In Dallas April 25

Mr. and Mrs. Tom Allmon, 1428 West First avenue, announced the marriage of their daughter Miss Rosa Mae Sherrard of Dallas, to Emory Speir, son of Mr. and Mrs. M. L. Speir, 306 West Linden street, Ennis.

The wedding took place, Saturday, April 25, 1942 in Dallas at the home of the Rev. C. Wade Freeman who officiated. Only close friends attended.

Mrs. Speir is a 1941 graduate of Corsicana High school. Mr. Speir is a graduate of Ennis High school. The couple will reside at 1314 Barry, Dallas.

Fifty Years Ago.

The following item appeared Tuesday in the "Fifty Year Ago" feature of the Dallas News: Corsicana—A. T. Henry of Blooming Grove announced as a candidate for the state legislature from this district, to occupy the seat heretofore held by the Hon. George T. Jester.

APPLICATIONS FOR DRIVERS LICENSES SHOULD BE MADE

AUSTIN, May 4.—(Special).—Nine hundred thousand Texas drivers' licenses have been issued under the new drivers' license law since last Oct. 1, State Police Director Homer Garrison announced today. This is considerably less than half the 2,250,000 licenses which are expected to be issued by the end of September, Garrison said, warning that an unmanageable rush will occur late in the summer unless the rate of applications is speeded up immediately.

"The Drivers License Division is issuing only 160,000 licenses a month now, and is prepared to give rapid service," Garrison said. "If the applications continue to come in at their present rate, the number of applications each month will have to jump to 250,000 or 300,000 in July, August and September to meet the deadline."

Applications now are being accepted from any holder of an operator's license regardless of its serial number.

Successful Growing Of Hubam Clover

E. L. Watson of Barry, who is cooperating with the Navarro-Hill Soil Conservation District, has been successfully growing Hubam Clover on his farm for the past three years.

This annual white sweet clover is soil conserving, soil building, may be used for temporary pasture, and produces cash crops in its hay and seed. It can be interplanted in small grain in February and March without interfering with the harvesting of the grain crop.

Mr. Watson has been planting it in strips thirty-six feet wide along the terrace lines to enable him to build the terraces in the summer without disturbing his late maturing crops. He finds it checks the flow of water down the slope and filters out valuable topsoil. During one heavy rain, silt deposits in the upper half of the strips were one to six inches deep.

Illustrating the soil-building qualities of Hubam, he states that a very conservative estimate on the increase of his cotton would be fifty pounds of lint per acre, and twenty to thirty bushels of oats per acre. Cotton following Hubam was much greener and more thrifty than that on land where cotton followed cotton. There was very little root rot where cotton followed clover as compared to quite a bit of root rot where cotton followed cotton. The decrease in amount of root rot is attributed to Hubam since the root rot was previously scattered rather uniformly over the field.

David Yates Now Stationed Kirtland Field, Albuquerque

Private David Yates, native of Corsicana and connected with local theatres for many years, is now stationed at Kirtland Field, Albuquerque, N. M., as a member of a recruit and casual detachment in the U. S. Air Corps (ground crew), according to information received by local friends.

AVIATION CADET TRAINED HERE FIRST IN AIR WACO SCHOOL

Aviation Cadet Harvey N. Mitchell, Jr. of Beaumont was the first cadet to take to the air at the Waco Army flying school as flight training started Monday.

Mitchell finished his primary training at the Corsicana School of Air Activities of Texas last Thursday and was in the first contingent reporting to the Waco school.

A picture in the Waco News-Tribune Tuesday morning showed Mitchell in the front cockpit of the basic trainer as fellow cadets waved him good luck. Capt. J. D. Lavelle, instructor, was in the rear cockpit.

Half Hour Old Baby Registered Sugar Rationing

The registration rule under the sugar rationing plan which requires every member of the family to apply for a war rationing booklet did not escape the attention of Gordon Riley Keeler of Tyler, a motion picture projectionist, when he was informed early Monday morning of the birth of a son in the Navarro Clinic here.

Keeler stopped at a registration booth in Tyler to secure a war rationing booklet for his one-half hour old son before chartering a plane to fly him to Corsicana.

According to information received here, registration clerks did not press Keeler for answers to his child's weight, height, color of hair and eyes—required information for all other applicants.

Mrs. Keeler is the daughter of Mr. and Mrs. Sims A. Hagler, 1034 West Sixth Avenue.

PATTERSON SAYS RUBBER SHORTAGE EXTREMELY ACUTE

SUNDAY TRIPS, VISITS AND PETTING PARTIES MAY HAVE TO BE STOPPED

WASHINGTON, May 7.—(AP)—Undersecretary Robert Patterson said today that the rubber shortage was "so acute" that the time had come to stop "Sunday trips, visits to Cousin Joe and petting parties."

At a press conference Patterson predicted that the need for conservation of a million tons of rubber now rolling on the highways would demand curtailment of sports events.

Patterson said present government plans contemplated voluntary purchase of extra tires held by the public, but not the requisitioning of the fifth, or spare, tire on a private motor car.

As for vacations, Patterson said the forthcoming rationing of gasoline would go a long way toward taking care of that question.

"There is no question of the seriousness of our present rubber situation if present driving habits continue," Patterson said. "The full practices of the past must soon become only a memory."

"The time may come when some workers in the war plants will have to have the benefit of tires now in use on private cars," Patterson said. "The government officials yesterday told the senate military affairs committee that legislation to authorize government requisitioning of automobiles, tires, or parts is being speedily considered. The committee will consider the measure Saturday."

The undersecretary noted that 98 per cent of the nation's normal supplies of crude rubber came from the Far East and were now cut off. He said that while we have a substantial stockpile, military requirements had risen steadily as the scope of the conflict broadened.

Bridger Family Has Returned From Houston Reunion

Mrs. Emma Bridger and daughters, Emma, Lillian, and Lillian, returned Monday evening from Houston, where they had been attending the annual family reunion of the Boswell family, and the observance of Mrs. M. V. Boswell's 70th birthday, which was May 1.

Mrs. Bridger and daughters accompanied her brother and his family, Mr. and Mrs. M. V. Boswell, and Mrs. M. V. Boswell, of Purcell, Okla., to Houston for the reunion, which was held this year in the home of Mr. and Mrs. Henry Boswell in the Alamo Farms community, near Austin.

Sunday's dinner was held on the lawn and was served from a large banquet table which seated the 34 members that were present. A most pleasant and enjoyable time was had by all and the only regret of anyone was that they could not stay longer.

Reunion Attendees, as follows: Mrs. M. V. Boswell, the mother, of Lubbock, and the following children, grandchildren and great-grandchildren: Will Boswell, Pensacola, Fla.; and Mrs. R. M. Boswell and children, Barbara and Marlene, of Purcell, Okla.; Mr. and Mrs. Henry Boswell and sons, Sonny and Johnnie, of Houston; Mrs. E. L. Bridger and children, Ernest, Sneed, Emma Jane and Lillian, of Corsicana; Mrs. J. J. McGow and daughter, Helen, of Lubbock; Mr. and Mrs. D. B. Beal and Mrs. He, Virginia, Roy James and Charles, of Corpus Christi; Mr. and Mrs. William Bellah and Katherine, also of Corpus Christi; Mr. and Mrs. Clyde Boswell and Mary, of Lake Charles, La.; and Mrs. Lewis Boswell and Connie, of Baytown; Opal Shelton and Milton Campbell of Corsicana.

There were two different sets of the fourteen generation present and every member of the family are looking forward to the next reunion and a most enjoyable time.

Californians Leave For Home Following Visit in Richland

Mrs. Hugh W. Garland and sons, Raymond Louis and Glynn Earl, who have been visiting relatives in Richland the past two weeks, left Monday afternoon for their home in Alhambra, Calif. They will arrive home on Dr. and Mrs. Garland's wedding anniversary.

SWEET-TOOTHED TOTS EAT SUGAR RATION BOOKS

It was bound to happen somewhere. Steve, 1, and Judy, 2, ate the ration books of their mother, Mrs. Harold Colvert at Oklahoma City. The county rationing board averted a Colvert sugar famine, furnishing the new ration book warily as the children posed for this picture.

TWO CONDEMNED MEN DENIED RELIEF BY BOARD OF PARDONS

AUSTIN, May 7.—(AP)—James B. Alford, scheduled to die in the electric chair after midnight Thursday, and Emeliano Benavidez, sentenced to be executed May 10, were denied commutation of sentences yesterday by the board of pardons and paroles.

Both applications were rejected after careful consideration of the records, said Board Member T. C. Andrews, who did not amplify the statement. Without the board's recommendation, Gov. Coke Stevenson cannot grant a reprieve.

Alford was convicted of the hitchhike slaying of R. L. Agnew, San Antonio salesman. He was given stays of 10, 19 and 28 days, the latter two in order to complete a sanity hearing, in which he was found sane.

Benavidez, given a 30-day stay of execution, was convicted of slaying Henry Calcutt, Schleicher county rancher. The Mexican government sought clemency for Benavidez.

MORE RESTRICTIONS ON USE OF COPPER, BRASS AND BRONZE

WASHINGTON, May 7.—(AP)—The war production board today prohibited the use of copper, brass or bronze after May 31 in more than 100 additional civilian commodities—including pins, Christmas tree bulbs, Neon and Fluorescent lighting for advertising signs, musical instruments, cooking utensils, and electric razors.

The drastic order, emphasizing the gravity of the copper supply situation meant a complete stoppage of production for many of the commodities on the list for which no copper substitutes have been found.

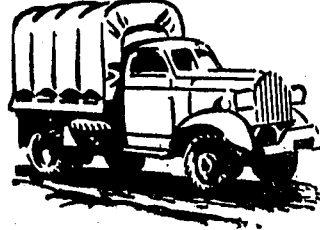

WPB predicted the greatest dislocation resulting from the ban would be a lack of pins. About one-third of all household pins produced in 1940 and 1941 were made of brass and the remainder of steel; production of steel pins has not been stopped but the production rate is limited.

Workers to Hear of Product. SEATTLE, May 7.—(AP)—Work will be recessed briefly this afternoon at the Boeing Aircraft plant to allow employees to hear the army pilot who put one of their four-motored products through one of the most famed aerial exploits of the war.

The speaker will be Capt. Hewitt T. Wheeler. He is the "Titan" whom President Roosevelt extolled in his recent radio talk to the nation, for bringing one of the Boeing flying fortresses through a 75-mile fight with Japanese planes with his bomber riddled.

What You Buy With WAR BONDS

United States army trucks resemble the prairie schooners of our pioneers for utility, not for sentiment. These motorized covered wagons "get where they are going" with men and supplies.

The 2½ ton truck costs about \$2,000 or slightly more than the purchase value of 100 of the \$20.75 War Savings Bonds. We need thousands of these trucks. You can help pay for them by buying U. S. War Savings Bonds every pay day. Help swell the War Bond quota in your county.

NEEDS OF CHILDREN STRESSED IN FINAL SESSIONS OF PTA

By WILLIAM T. RIVES. SAN ANTONIO, May 7.—(AP)—Military victory will be "spiritual defeat" if the needs of children "are forgotten in the world struggle," the National Congress of Parents and Teachers was told today in a report by its findings committee.

The committee asserted "children are the greatest resource of the nation, our hope and our salvation."

Parent-Teacher Associations throughout the country are guided by the ideals and suggestions expressed in the findings adopted at the National Congress' conventions.

The committee report was the most important business submitted at the final session. Scoring isolationism, the report suggested "we must realize that we never can dissociate ourselves from anything that goes on anywhere in the world."

"There must be understanding between peoples, between nations, between groups. Friendship with our good neighbors of the western hemisphere and with our neighbors on the other side of the tracks must be real."

Parents, the report said, "should prepare themselves to guard the well-being of their families through classes in home nursing and first aid."

Efforts to "eliminate commercialized vice and prostitution, must be made because venereal diseases is a threat to the well-being of youth, the efficiency of the fighting forces and the future of the race," the convention was told.

Other points stressed in the report were opposition to "any curtailment of educational opportunity;" a request that federal school aid be furnished poor communities; a "nationwide plan for identification and registration of children;" and guarding of child labor standards.

WET WEATHER HAS DELAYED PLANTING COTTON, PEANUTS

GROWING CROPS, HOWEVER, CONTINUED TO MAKE EXCELLENT PROGRESS IN TEXAS

AUSTIN, May 7.—(AP)—Wet weather delayed planting of cotton and peanuts in the week ending May 3, but growing crops continued to make good progress, the Bureau of Agricultural Economics, U. S. department of agriculture, reported today.

Field work in much of the state made only slight progress. In the high plains conditions were excellent, but it was still too early to plant row crops. In the south low plains and central counties some planting was done during the latter part of the week. In the northern low plains, North, East and Southeast Texas it was too wet to work the soil, while the coastal bend and South Texas remained too dry. Greenbug damage to small grains appeared to have been mostly checked, except for an area in the eastern Panhandle.

Wheat has thick stands and made rank growth in most of the important producing area of northern Texas. In the greenbug devastated section of North Texas, a small proportion of the oats and barley acreage which had not been plowed up continued to improve, but the crop will be small.

In the greenbug devastated section of North Texas, a small proportion of the oats and barley acreage which had not been plowed up continued to improve, but the crop will be small.

Twin Launchings U. S. Destroyers Orange Thursday

ORANGE, May 7.—(AP)—In a twin destroyer launching at the Consolidated Steel Corporation, Ltd. yards today, the U. S. S. Harrison was to slide down the ways at 11:30 a. m. after being christened by Mrs. Harry B. Hird, wife of the company's vice president.

The U. S. S. John Rogers was to leave its cradle at 2 p. m., sponsored by Miss Helen Perry Rodgers of the United States embassy in Mexico and great-granddaughter of Commodore John Rodgers, for whom the vessel is named.

Black Hills Baptist W.M.U. In Regular Session For Study

The Black Hills W. M. U. met in regular session with Mrs. W. N. Hamilton this week. The lesson on the thirty-seventh and thirty-eighth chapters of Exodus was led by Mrs. W. N. Hamilton, preceded by a prayer by Miss Ora Speagle.

After the lesson, the grab box was enjoyed by all present. This was also regular cookie day for the orphans home.

During the social hour, the hostess served a refreshment plate to Messdames C. V. Brethaupt, O. S. Rich, E. F. Cook, Olen Rich, F. P. McCulston, C. M. Stover and the visitors were Mrs. Jess Dunton and Miss Ora Speagle.

The next meeting will be a social meeting with Mrs. C. M. Stover, Monday, May 11.

Notice. I wish to inform my friends that I am now representing Corley Funeral Association. If you are interested in burial insurance, leave word at Corley Funeral Home. Phone 80. HORACE HAYES.

DISLOCATIONS OF POPULATIONS HARD ON AMERICAN LIFE

NATIONAL CONGRESS OF PARENTS, TEACHERS HEADS INTO FINAL SESSIONS

By WILLIAM T. RIVES. SAN ANTONIO, May 7.—(AP)—Warned that dislocations of population due to war industries is "blasting" American life more than aggression, the National Congress of Parents and Teachers headed into the final sessions today of one of the most important conventions in its history.

Already geared to a stout program of increased service in wartime, the Congress has listened to scores of speakers emphasizing the need for a well-knit, smoothly-functioning home front.

Paul Kellogg, editor of the Survey Graphic, said less attention should be paid to "mythical bombs" and more to communities' problems of housing, health and recreation.

He suggested that the defense councils be broadened, divested of "stuffed shirts and political skates" and use persons prepared to take off their shirts and go to work.

The "tendency" to rely on congressional investigations to expose irregularities was criticized by Kellogg, who urged communities to assume additional responsibility.

The findings committee, which prepares the guide that Parent-Teacher Associations may follow during the coming year, announced it would submit its report to the Congress today.

Memphis, Chicago and Indianapolis were bidding for the next convention. The site will be picked later by the board of managers.

Ercel S. Eppright of the Texas State College for Women said America's "present need is a vast educational program which will reach into every home."

CATTLE PRODUCERS DECIDE HOLD THEIR STOCK OFF MARKET

DECLINE SINCE CEILING PLACED ON FRESH MEATS BRINGS RESENTMENT

By WILLIAM FERRIS. CHICAGO, May 7.—(AP)—Cattle producers, reacting quickly to sharp price declines since the Office of Price Administration's announcement that ceilings would be imposed on dressed beef, have reduced substantially shipments to all major markets.

A drop of 25 cents to \$1 a hundred pounds in values last week, followed by another 50 cent decline Monday, convinced producers their best bet in resisting the downward was to curtail marketings. Livestock circles acknowledged today producers had gone into curtailment with a vengeance.

Reversing the trend of earlier this year, cattle offered for sale in 12 principal centers in the first three days this week totaled 102,300 head against 129,800 in the comparable 1941 days. In the same period last week, 149,200 salable head arrived.

This is a distinct contrast with April, when 767,439 salable head arrived at the same 12 markets compared with 659,690 in April, 1941. For the first four months this year salable receipts totaled 2,996,157 head against 2,521,271 in 1941. A feature of the cattle runs was the practically complete absence of choice or prime steers. With packers reducing the premiums normally paid for such offerings, the supply has been limited mainly of medium grades. Early last week, before the OPA's order, choice cattle brought \$17.25 a hundred pounds at Chicago. The top this week, established Wednesday, was \$15.75—paid for much less attractive quality.

Must Aid Children. GALVESTON, May 7.—(AP)—Communities which fail to provide recreation to take the minds of children off the war are negligent, speakers declared today at a joint conference of Texas recreation workers.

R. D. Evans of Fort Worth, president of the association, declared it was the duty of every city to provide play for children, so that "they will not grow old in war time."

Have something you don't need? Try a Want Ad and convert it into cash. Just phone 163.

Leads Batters

Bobby Doerr, Boston Red Sox second baseman, with an average of .460, is leading all the batters and both major leagues. He has been at bat fifty times and made twenty-three hits.

Britain Admits Heavy Losses in Arctic Battle

LONDON, May 7.—(AP)—The loss of the 10,000-ton cruiser Edinburgh and four convoys merchantmen in a running sea fight along the storm-tossed Arctic supply lane to Soviet Russia was announced today by the Admiralty, which declared that 90 per cent of the convoy cargoes got through safely despite plane, warship and U-boat attacks.

The attacks, severest from April 30 through May 2, cost the Germans one destroyer sunk, another damaged severely, at least two dive bombers crippled and others perhaps sunk. This German version of the air-sea and undersea assaults. One, laden with war supplies, was said to have got through 90 per cent intact, with a loss of 100 tons.

"The other, headed home, lost one ship in the Baltic," the Admiralty said. The Edinburgh, completed in 1939, was struck twice by torpedoes and "later had to be sunk by our own forces as towing was no longer practicable in the weather conditions prevailing."

The fight apparently was the same reported three days ago by the German high command, which said a 10,000-ton British cruiser had been sunk. This German version said six convoys ships totalling 37,500 tons also were sent to the bottom in a furious running battle which lasted for several days.

The Germans admitted the loss of five planes and said one destroyer "suffered serious damage."

Multiple Birth Expected Soon to Young Englishwoman

ABINGDON, England, May 7.—(AP)—Governor of the hospital which has been observing a constant vigil today over Mrs. Emily Woodley, who is expecting a multiple birth—possibly quintuplets.

Young Dr. J. H. Fisher, who is in charge of the case in the hospital, said that the little Berkshire village, said four or five babies might be born any day to Mrs. Woodley, 28-year-old wife of a soldier.

"The hospital matron declared, 'we are certain about three of them, anyway.'"

Family Gathering In Lonsford Home On Last Sunday

A family gathering that included all but one son was held Sunday at the home of Mr. and Mrs. W. E. Lonsford, 516 North Twenty-Third street. Among those present were Staff Sergeant and Mrs. William E. Lonsford, Lowry Field, Denver, Colo.; Mrs. E. E. Jones of Weatherford, Mr. and Mrs. J. B. Bowers and children of Fort Worth, and Mr. and Mrs. J. E. Howard of Corsicana. Fred Miller, now the naval training station at San Diego, was the only family member missing.

Maze Allergic to Airplanes. LOS ANGELES, May 7.—(AP)—Blonde Ann Southern won a divorce today when she told the judge that husband Rober Pryor's insistence on flying constituted cruelty.

"We separated twice before our final separation," she testified in Superior Judge Harry R. Archbold's court. "And all three breakups were due to the same thing—airplanes."

ODT OFFICIALS TO INSIST UPON FEWER NEWSPAPER DELIVERY

WASHINGTON, May 7.—(AP)—Office of Defense Transportation officials were reported today to be insisting that the newspaper industry be ready to comply with an order reducing deliveries on May 15.

Officials said that as of the present there was no intention of deferring the order of Joseph B. Eastman, ODT director and virtual czar of rubber-tired transportation, to permit working out compliance programs.

The order was issued April 20, but thus far only two plans have been submitted—one by the American Newspaper Publishers' Association and the other by the New York papers.

Both call for elimination of deliveries by vehicle to individual subscribers (such as rural routes), use of contract carriers where possible, collection of over-applying routes, and pooling of deliveries where possible.

Eastman's order requires that, beginning May 15, an individual or company may make only one delivery a day to any one person. This has been interpreted as meaning that a newspaper publishing company may make but on delivery a day to a new subscriber, a distribution point. It has been held also to prohibit special delivery mail by vehicle since all special delivery trips or return trips will be frozen.

The order applies to government-owned agencies as well as private operators of autos and trucks.

Grain Shipments Forbidden. WASHINGTON, May 7.—(AP)—The Office of Defense Transportation announced today that all grain shipments over the Great Lakes had been prohibited from any port of point, except by special permit.

In a sweeping order, designed to assure cargo space to move needed supplies of iron ore, ODT took control, effective May 15, over approximately 340 Great Lakes vessels.

Local Observance National Hospital Day Is Announced

Local observance of National Hospital Day in Texas, Tuesday, May 12, has been announced by local institutions.

Herodism of American doctors and nurses on the battlefronts will also be observed. Hospitals throughout the nation annually open their doors for public inspection, honoring the memory of Florence Nightingale, Crimean War heroine, who founded the modern system of nursing.

Open house will be held at the Navarro Clinic from 3:30 to 5 o'clock Tuesday afternoon for the babies born at the Clinic and their mothers. This is an annual party, but will be held at the Clinic rather than at the city park as has been the custom for the past several years, it has been announced.

Open house will be held at the P. and S. Hospital from 2 to 5 p. m., officials have stated. Open house will be observed at the Corsicana Hospital and Clinic from 4 to 6 p. m., Tuesday.

Cotton Producers Receive Benefits

Benefits to Navarro county cotton producers for 1941 conservation compliance passed the \$300,000 mark Thursday morning when fifty checks, aggregating \$20,820.10, were received for distribution from the county AAA officials.

The consignment Thursday morning brought the season's total to \$315,830.00.

PANHANDLE'S WAR MOTHERS TO GATHER IN BORGER MAY 9

BORGER, May 7.—(AP)—The Texas Panhandle's war mothers, augmented by the war mothers of portions of four other states—Oklahoma, Kansas, New Mexico and Colorado—will gather here May 9, to be honored by the men who served in the first world conflict.

These mothers will be guests of honor of a large "four-in-one" American Legion convention to be held here May 9 and 10. Features of the two-day session will be a parade Saturday afternoon in which all of these war mothers, who now have sons in the armed forces of the United States, will appear.

The program of the convention has been dedicated to Mrs. A. W. Hope, first Borger mother to lose a son in action during the present war. Her son, Harold, a marine, was killed in action aboard the USS Arizona during the Pearl Harbor attack.

Mrs. J. H. Helton, six-star mother of Clarendon, Texas, and Mrs. George Baker, six-star mother of Friona, Texas, have been extended special invitations to be present in the affair. Mrs. L. E. English of Dumas, Texas, who also lost a son at Pearl Harbor, will be another special guest.

The four organizations convening here on these dates are the American Legion and the Panhandle Plains Association of American Legion Posts, which includes parts of Texas, Oklahoma, Kansas, Colorado and New Mexico.

Thumbnail Sketches Candidates Senate

By The Associated Press. Thumbnail sketches of W. Leo O'Daniel's opponents in the Democratic primary for nomination as United States Senator:

Dan Moody: Born at Taylor, Williamson county, son of Daniel and Nannie Elizabeth (Robertson) Moody, educated in public schools, worked as electric lineman, received law degree from the University of Texas, county attorney of Williamson county 1920-22, district attorney 28th district 1922-25, attorney general 1925-27, governor 1927-31, subsequently in private law practice at Austin and widely active in state and national politics, Baptist. Noted politically for fierce campaigns against James E. and Miriam Ferguson, fiery campaigner, quick-thinking stump speaker.

James V. Allred: Born at Bowie, Montague county, March 29, 1899, to Renne (a wagon-yard operator) and Mary Magdalene (Henson) Allred, educated in Bowie public schools, worked as a newsboy and bootblack and janitor, attended Rice Institute and received LL. B. degree from Cumberland University and LL. D. from Texas Christian, served as sailor in U. S. Navy during World War I, appointed district attorney for Wichita, Archer and Young counties by Gov. Pat Neff, and served 1923-1926, attorney general 1931-35, governor 1935-39; appointed U. S. District Judge in 1938, member Christian church. Facile political campaigner, top-notch stump speaker.

THERE IS STILL TIME FOR PLANTING PEANUTS IN TEXAS MAY BE PLANTED AS LATE AS MID-JUNE WHEN THERE IS PLENTY OF MOISTURE

COLLEGE STATION, May 7.—If soil moisture is sufficient, peanuts may be planted up to mid-June over a large area in Texas, says E. A. Miller, agronomist of the A. and M. College Extension Service.

The U. S. Department of Agriculture asked Texas farmers to grow 1,066,000 acres of peanuts in 1942. But they may plant as much more as they wish. This acreage is more than three times greater than was planted in 1941, is an important part of the war effort. Fats and oils are needed for consumption by the people of all nations, and the people of allied nations, for the manufacture of glycerine, an important element in high explosives.

It is estimated that 12,500,000,000 (billion) pounds of oil and fats will be needed in the United States in 1942. Farmers will have to produce a large part of this. Peanuts are one of the best sources, Miller says.

The secretary of agriculture has fixed a price support of \$82 a ton or \$1.25 a bushel of 30 pounds for No. 1 white Spanish nuts, delivered to an approved agency.

"With this bottom price on peanuts is a good cash crop on sandy and sandy loam soils over a large part of Texas," Miller points out. "In many cases it is a more profitable crop than cotton on such soils."

To obtain maximum yield the land should be prepared by flat breaking or by bedding. The seed—Spanish type peanuts are best suited to Texas—should be planted in 36-inch rows at the rate of about 45 pounds of unshelled, or 25 to 30 pounds of shelled nuts an acre. Soaking unshelled nuts overnight before planting hastens germination, but shelled seed should never be soaked. Enough shallow cultivation should be given to destroy weeds and grass and gradually work soil to the plants. From the beginning to the end of the season, 100 to 200 pounds of 20 per cent superphosphate an acre is recommended on loamy soils, or an equal amount of 4-12-4 on lighter sandy soils.

PRECAUTIONS ARE URGED CONNECTION BLASTING CAPS

AUSTIN, May 7.—(Sp.)—With recent months bringing to Texas a great number of defense construction projects, the danger resulting from the careless handling of blasting caps has been greatly magnified, according to Dr. Geo. W. Cox, State Health Officer.

"Due to occasional carelessness on the part of workmen, live caps sometimes are left in the neighborhood of construction jobs and thus get into the hands of children or others ignorant of their character," Dr. Cox said. "Curiousity often leads to tampering with these blasting caps with resulting serious injury."

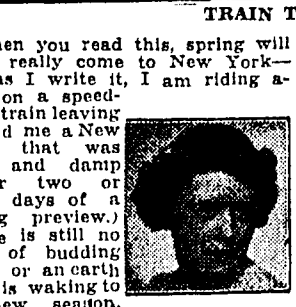

Parents and school teachers should stress that it is perilous to hit blasting caps with hammers or other instruments, and that it is equally hazardous to throw them into fires, Dr. Cox states. Children should be warned not to touch blasting caps. If they come upon a stray one they should report the fact promptly to some authority, and that it is their duty to report the hazards now associated with them can be practically eliminated, Dr. Cox said.

HEALTH, BEAUTY AND POISE HOW TO IMPROVE YOUR PERSONALITY By VERONICA DENGEL

Veronica Dengel

When you read this, spring will have really come to New York. I am riding a train leaving behind me a New York that was cold and damp after two or three days of a spring preview. There is still no sign of budding trees, or an earth that is waking to a new season.

But as my train races southwest through Ohio, and Indiana, and Illinois, and Missouri, there is a gradual change in the scene. There are green grass, and fruit trees just beginning to blossom, and willows well covered with their leafy green pattern, other trees budding, and a few rock gardens in early flower. Tomorrow, as I get into the real South, on my way to Texas, I shall reach full bloom of trees and flowers, warm sunshine and sprouting farms.

The thought came to me at lunch as I looked out the window, that each state in the union has its own individuality, its own special scenery, even differences of dialect and accent, as well as customs—and still there is a pervading sameness everywhere one goes. The same time, the same advertisements of nationally used products—although one sees other advertisements of brands unknown at home. There are the stations along the way all owned by a certain railroad company—and still with their differences in appearance. There are the buildings in each large city of the same huge farm implement company—although each has its different personnel and customers. And there are the same federal laws, although each state has its own laws peculiar to that state alone.

And it occurred to me that our country, with its unity of states—individual in themselves, but still making a complete whole—was comparable to the people living in this country. We, each and every

one of us, have our own personal code—but still so nearly like that of our neighbors—we all have our own dreams and ambitions, so similar to those of our friends who may take a different road towards achievement—and no one of us eats, and thinks, and looks and dresses just exactly as any one else, but still there is a close parallel here, too.

And as it goes with our country—states occasionally criticizing or even ridiculing each other, but never remotely thinking of breaking such a bond as was overcome some 80 years ago, so will our people always pull together in union—forgetting differences of opinions, customs and ambitions—but working "one for all, and all for one."

Out of the tragedies and horrors of war—every war—must come some good. Always this has been so. Wars do bring progress, although sometimes it is hard to believe—hard even to find, but still ahead of us, sorrow and deprivations, and heartache—one day we shall wake to the sound of the magic word "Peace"—and a new world will have another beginning. Let us dream of that tomorrow as we carry our share of the task today.

All requests for person "Health, Beauty and Poise" information, sent to Veronica Dengel, column follows must be accompanied by a self-addressed, stamped envelope (a.s.e.) Address: Veronica Dengel in care of this newspaper.

Mr. Farmer—

We have all the parts and can repair any make or model magnetos. We carry a complete line of new magnetos for all tractors and motors.

LATE FOR CORN BUT THERE IS PLENTY OF TIME FOR SORGHUMS

COLLEGE STATION, May 7.—(Sp.)—It's getting late to plant corn, but there's plenty of time to seed milo, begar, kafir and other grain sorghums to replace much of the oats and barley crops lost to the green bugs, says E. R. Eudaly, Extension Service dairyman.

A cow giving an average of two gallons of milk daily for ten months, Eudaly explains, will need 1,200 pounds of grain sorghum heads yearly when no oats or barley is used in the ration. "Every farmer who milks cows should plant enough grain sorghums to supply each animal with that amount of heads. In most cases it will require an acre of any of the grain sorghums to make 1,200 pounds of heads. The stalks can be cut and placed in a trench silo for use in place of pasture."

Whenever moisture conditions permit, farmers producing milk should plant one acre of sudan grass for each cow in order to insure the best quality. Eudaly says. Good green pasture is the best and cheapest feed possible for dairy cows, Eudaly says.

Plant sudan in rows. This method requires less seed and will furnish more grazing than if broadcast. Farmers having a surplus of sudan pasture should cut the grass for hay, or if preferred, for silage. For hay, the sudan should be cut just before it heads in order to obtain the best quality. Eudaly says it should be allowed to head and form seed. If this is done no molasses will be needed in making silage. In any event, molasses might be difficult to get.

TP&L Employees Pushing Sale Of U. S. War Bonds

Employees of the Corsicana district of the Texas Power & Light Company selling the largest amount of United States war savings bonds and stamps during January, February and March were named today by F. H. Harvey, district manager. Sales for the entire T. P. & L. organization in the 32 counties of North, East and Central Texas in which it operates now total \$410,582.80.

Bert Washburn, Kerens, led Corsicana district employees in the sale of bonds and stamps with a total of \$17,510. Mrs. Agnes Loney led all cashiers in the Corsicana district in stamp sales alone with a total of \$209.60.

Since January, all employees who could be spared each Monday from 9:30 to 11:30 a. m., devoted this time to selling war savings bonds and stamps to their friends and neighbors. The totals given above also reflect sales by employees to themselves.

The campaign was originated at the suggestion of John W. Carpenter, president of the T. P. & L. Company, after a successful trial a few days after Pearl Harbor was attacked. Mrs. Loney was declared on the aggressor nations.

Mr. Carpenter has stated that the plan will continue until the war is won or until such time as the government no longer desires sale of bonds and stamps.

In addition to the Monday morning sales by employees, war savings stamps are on sale at all cashiers' desks during office hours throughout the week.

FARMERS WHO HAVE SURPLUS CREAM PEA SEED ASKED SHARE

COLLEGE STATION, May 7.—(Sp.)—Farmers who may have saved cream or purple hull peas from the 1941 crop for 1942 planting are being urged to share any surplus seed with their neighbors. Even weekly damaged and low-germination peas which normally could not be sold will find a ready market now at most seed dealers.

There is a serious shortage of cream peas for garden planting, and the purple hull cowpeas—a Texas variety—can no longer be found on the market.

Only seed stores that have been lucky enough to find a local supply of cream or purple hull peas have them on sale, according to J. F. Rosborough, horticulturalist of the Texas A. and M. Extension Service Seed houses have been out long ago.

A considerable acreage of cream peas for canning is planted in Texas, but most commercial growers saved seed from 1941 or bought their supply early. It is the home gardener who wants to plant a few rows for home use who is having difficulty in finding seed.

Black-eye peas and the crowders are good substitutes for the cream and purple hulls and, in fact, are preferred by many gardeners. The supply of black-eye seed is limited, but large enough for normal demand. There is no shortage of crowder cowpea seed.

ORGANIZATION SET UP TO AID GETTING OIL EAST SEABOARD

STRESSED THAT ORGANIZATION NOT IN OPPOSITION TO ANY GOVERNMENT BODIES

SAN ANTONIO, May 7.—(AP)—An organization to be composed of "everyone who is interested in winning the war and who is interested in seeing industry operate 100 per cent efficiently along the Eastern seaboard—from Canada to Mexico" was set up at a meeting of independent oilmen's committee Wednesday.

Henderson Coquat, chairman of the committee, stressed that the organization, which was named the Emergency Oil Transportation Association, was not just for oilmen. "It is to be strictly non-political and non-profit," he said. "It is not in conflict with any of the governing bodies or their policies, but is simply to try and help them and act in cooperation with them to solve the problem."

Coquat said the primary aim of the organization was to find a permanent solution to the problem of transporting oil economically to the Eastern and Northern shores in sufficient quantities both for the war effort and civilian use to insure 100 per cent efficiency to industry.

The organization will back the Mansfield bill providing for an immediate construction of a canal across the base of Florida, and the Coastal canal which is already in operation from Florida to Brownsville, Texas.

Coquat said Rep. Joe Mansfield, chairman of the house rivers and harbors committee, had expressed appreciation of the oilmen's efforts and asked that a committee be sent to Washington for the hearing of the bill, when it was ready. This committee will include Col. Ernest O. Thompson, chairman of the Texas railroad commission; Harry Pennington of San Antonio; Maston Nixon of Corpus Christi, a member to be selected from Houston, a Major Hardy of Louisiana.

The group will be under the direction of Roy Miller of Corpus Christi, chairman of the intercoastal waterways.

Charles V. Lee Died At Houston Thursday

HOUSTON, May 7.—(AP)—Charles Vernon Lee, 63, president of the Lee Petroleum Corporation of San Angelo, and brother of the late T. P. Lee and W. E. Lee, prominent Houston oil man, died today in a Houston hospital.

A native of West Virginia, Lee had lived in Beaumont and Houston for a number of years before going to San Angelo to make his home in 1927.

Surviving are his wife, Mrs. Merle Lee of San Angelo; three daughters, Mrs. Dorothy Jones, Miss Mary Lee of San Angelo, Mrs. Margaret Volkman of Beaumont; one son, Leslie Lee of San Angelo; a brother, Humphrey A. Lee of Murraytown, W. Va. and two grandchildren.

Funeral arrangements will be announced later.

WHERE AMERICANS MADE LAST STAND

From the island fortress of Corregidor where American forces made their last major stand in the Philippines, this looks across the narrow strait to Bataan Peninsula from which Japanese guns blasted in constant assault. A sunken ship in the strait is evidence of battle. Continued aerial and artillery bombardment preceded the island's fall, the war department announced.

RAINEY CONDEMNS DRAFTING FACULTY, COLLEGE STUDENTS

PRESIDENT TEXAS UNIVERSITY DISCUSSES PRESENT PROGRAM OF GOVERNMENT

By BRACK CURRY
AUSTIN, May 7.—(AP)—President Homer P. Rainey of the University of Texas today condemned drafting of University students and faculty members, asserting the government was taking the nation's supply of trained manpower at its source.

"I don't think the government should take boys under 20 for the armed services," he said in an interview. Advocating requisitioning of "everybody who can help in this fight to the death," the head of the South's largest university urged a selective draft that would classify individuals according to potential abilities.

Draft authorities, he said, should consider a man's training as well as his physical condition before sending him to the army. "The educators of the nation want the newly-created war manpower board, headed by Mr. McNutt, to classify and allocate manpower on the basis of a man's usefulness," he stated.

The government should stop drafting students and faculty of

SWEET POTATO PLANT BUYERS URGED TO USE SELECTION CAUTION

J. E. McDonald, commissioner of agriculture, has issued a statement to sweet potato plant buyers advising them to be careful in the selection of the plants.

A portion of his statement follows: "Protect yourself and the sweet potato industry of Texas by demanding a tag on every bundle of slips you buy. These tags are your only insurance against black rot, stem wilt and the sweet potato weevil. Tags are issued by the state department of agriculture, only, to growers who have had inspections and it is unlawful to sell slips without the proper 1942 tags attached. Untagged slips may have come from infested beds outside of the pest free zones and may have weevil eggs in the base of the slips. Many weevil infestations have been traced directly to infested slips."

the nation's universities, President Rainey maintained, because "we can give these students technical training valuable to the war effort if they will leave them in the universities." When the government drafts students and faculty members, it deprives the nation of its supply of trained manpower at the source, the educator declared, pointing to the loss of 2,000 students this year at the university.

WOULD HAVE STATE PURCHASE BOMBER OUT PENSION FUND

DALLAS, May 7.—(AP)—Gen. Robert P. Scott, Confederate veteran, observed his 95th birthday today with a proposal to use part of the surplus in the state pension fund for Confederate veterans to purchase a warplane for the U. S. Army Air Corps.

"The state treasury recently reported a \$1,000,000 surplus in the pension fund," General Scott said. "Only 104 Texas veterans are now alive and not much of the fund set up by the state for their assistance is needed any longer. "Veterans over the state with whom I have talked favor the plan to purchase an army bomber. We would like to christen it the 'Texas Old Confederate Plane'."

Another Rain Fell Wednesday Morning

A heavy rain started falling here shortly after 7 o'clock Wednesday morning and by 10:30 had amounted to .70 of an inch. Only a trace was listed on the government gauge at 7 o'clock, a very light shower having fallen before that hour.

Farm work, which was just getting under way again, will be delayed several days.

War's Strain On Transportation Hampering Foods

WASHINGTON, May 7.—(AP)—Secretary of Agriculture Wickard declared today the war's strain on the nation's distribution system was placing "serious obstacles in the way of getting food to American consumers."

"In transportation—by rail, truck or ship—the situation is so tight," he said, "that we cannot afford to move anything that is not absolutely essential. x x x in fact, there is so much to be moved that usually it is a case of which essential product has priority over other essential goods."

In a speech prepared for delivery before a conference of government and other state and federal officials on governmental laws and regulations which restrict the war

Selective Service Board Members at Dallas Meeting

Members of the two Navarro County Selective Service Boards were in Dallas Wednesday night attending a gathering of similar groups from a wide area.

Representatives of the Washington headquarters of the Selective Service System were present and outlined the regulations and their application, prospective changes and similar matters.

effort, Wickard said many of the difficulties confronting the food industry were unavoidable.

"The federal government, no less than the state and local governments, is responsible for laws and regulations which unduly hinder the free flow of supplies to farmers and hamper the processing and distribution of farm products after they have been produced. x x x we must remove every impediment of food production and distribution that can be removed."
